# Beyond the Gown... Wedding Beauty

## Preparing The Best Version of Yourself For Your Picture Perfect Day

It is every girl's dream to be a stunning bride on her "Big Day", but the exquisite dress you combed through the stores for is not the only aspect to give you that jaw dropping look. In the midst of focusing on wedding tasks ahead like booking a venue, hiring a photographer and designing a menu to thrill guests, don't forget to take care of yourself. By establishing skin care routines and selecting the hair and makeup team that you will depend on for your most beautiful look, your wedding day preparations need to be long before the day!

At Glow Salon and Spa, we take wedding day preparations very seriously. Our staff is comprised of the most experienced and talented stylists to ensure that every bride is the vision of loveliness.

Our large salon is designed to host bridal parties spending quality bonding time in a relaxed and stress free environment that is designed to kick off your day in pure bliss. Leave the details and checklists behind and step into the world where you transition from a wedding planner to a BRIDE!

### Prepare Your Hair

Longer, shiner, volumized tresses are the goal for every bride to accomplish that picture-perfect hairstyle on their wedding day. Get started early with a hair care regimen that takes your tresses to the next level!

**Color** - Plan a final color touchup 1-2 weeks prior to your wedding, to ensure minimal growth and that your color is refreshed. Tone blondes with purple based toners to remove traces of brassiness.

**Cut** - a fresh cut is important to remove dry or split ends prior to your styling.

**Hydration** - A mask or serum at home is important to combat the change in altitude that your hair can experience when coming to Estes Park. In-salon treatments, such as Kerastase's Fusio-Dose or K-Water Shine treatments a few days before will leave your hair in perfect condition to play nice on your wedding day!

### Establish a Skincare Routine

There is no better time to establish a healthy skincare routine that will leave you looking (and FEELING) your very best on your wedding day. Learn about your skin type, tips for dealing with imperfections, and then stock up on the right products to create a daily routine that leaves your skin clean and hydrated. These are the key products that you'll need for a simple, but effective, skincare routine that you can start today:

- **Facial cleanser:** Choose from a foaming, cream, or lotion cleanser to rid your skin of impurities every day.
- **Toner:** Use a toner to gently remove any excess dirt and oil after cleansing and help to balance skin's PH
- **Moisturizer:** Hydrate your skin with a gel, cream, or lotion-based daily moisturizer.
- **Serum:** Target fine lines, wrinkles, or dark spots with an anti-aging serum. Look for effective ingredients like vitamin C, hyaluronic acid, and retinol, depending on your specific needs.
- **Mask:** Incorporate a mask into your skin care routine for additional moisturizing and anti-aging benefits.
- **Exfoliator:** Use an exfoliating cleanser or mask once or twice a week to slough off dead skin cells that leave your skin looking dry.
- **Incorporate Facials and Medical Grade Skin Care:** In the months preceding your wedding, Facials are an effective way to rediscover healthy, glowing skin, and there are many different types available.

# Beyond the Gown... Wedding Beauty

## The Eyes Have It

How would you feel as a bride hiding puffy eyes and dark circles? One of tips of bridal beauty before marriage to not ignore? Treat your EYES! Avoid letting the world know the stress you have been under with treating yourself to relaxing eye creams or treatments to ensure your eye glow with the excitement of the day! And of COURSE... don't forget your brows! Get the perfect A-list brows or even eyelash extensions before your wedding with the help of the beauty pros!

## Facials

- **HydraFacial** – If it is good enough for celebrities and royals before THEIR weddings, it is good enough for Glow's clients! Utilizing computerized equipment, our HydraFacial extracts buildup and treats skin with customized serums to lighten spots, brighten skin, hyper-hydrates to make those fine lines and wrinkles magically disappear! We recommend a regular routine of them with the grand finale being the day prior to your wedding – that makeup application will go on like glass and your natural glow will shine through!!

- A **brightening facial** fights dull skin, creating the healthy, glowing skin that you dream of for your wedding day.

- If sensitive skin, blemishes or imperfections are a concern, request a **custom AVEDA natural facial**, or our **medical grade PCA** to give your skin the special attention it needs to look its best.

- **Dermaplaning facials** remove dead, flaky skin cells and facial hair – from peach fuzz to stubborn hair to provide a silky smooth finish

## Don't Forget Hands and Feet

Manicures and pedicure are an essential part of bridal beauty. While you can hide your feet in wedding shoes, your hands will be a highlight of the day sporting that new wedding band!

## Exfoliation and Waxing

Brides are hugged more times in the days leading up to and the wedding day than any other time in their lives! Ensure a more huggable and confident you by treating yourself to body waxing and a body scrub or wrap to enrich your skin in moisture and make you snuggly soft for your wedding day and honeymoon!

## Spray Tanning

## Tanning

Leave the sun for the honeymoon and ensure a healthy and hydrated glow with a spray tan. We use top-of-the line formulas (the same used on Dancing With The Stars) for non-orange tones. Providing instant results and lasting up to 2 weeks, spray tans take only 15 to 20 minutes and can be done 1-2 days prior to your wedding. The perfect way to even skin tones and hide uneven tan lines.

## Lip Care

Lips get chapped and dry due to severe weather conditions, especially at our altitude. Using an SPF 30 lip balm regularly would not only restore and nourish your lips, it will also keep them beautiful, kissable and hydrated.

**So, whether you hire a bridal glam team that you want to use, or start practicing your bridal beauty look at home. It's never too early to start creating the beautiful skin, nails, smile and hair you desire on your big day.**

# Glow's Wedding Day Beauty Timeline

## **6-12 Months Before**

- Plan your wedding beauty budget. Include any pre-wedding treatments such as facials, manicures/pedicures, spray tanning, etc. into your plans
- Start a Pinterest board to collect inspiration photos for your hair and makeup styling
- Start a beauty binder or folder to collect notes, photos, magazine clippings, checklists
- Book your bridal beauty glam team. Hair stylists and makeup artists in high demand will book quickly, so it's never too early to secure your favorite stylist for your wedding-day hair and makeup. Visit with your team in person if possible to discuss treatments (color changes, cuts/trims, hair extensions, etc.) for your hair and skin to ensure that you are fully prepared for your wedding day services.
- Plan changes such as a new haircut or color to allow you time to try out the new look
- Schedule a dental appointment to address any concerns and plan a cleaning

## **4 Months Before**

- Schedule your trial appointments to ensure your date is available as well as appointments for the day prior - manicures/pedicures, spray tanning, waxing, facials, etc. Plan around other vendor meetings, tastings, venue tours, etc. Possibly incorporate your hair and makeup with an engagement photo shoot or bridal portrait session
- Test drive any new products and body treatments to ensure you don't have any adverse reactions.
- Schedule a facial regimen with your aesthetician and upgrade on skincare products to ensure the best results by your wedding
- Visit a dermatologist if you have any skin issues that you want to address before your wedding
- Consult with a brow specialist if your eyebrows will need any special attention or if they need to be reshaped

## **2 Months Before**

- Schedule your pre-wedding services such as manicures/pedicures, facial, spray tanning, etc.
- Begin your teeth whitening regimen
- Attend your hair and makeup trial with your team. This trial ensures that there are no indecisions or missteps on your wedding day. Bring pictures of hairstyles that you want to try, along with your hair accessories (veil, hair clips, etc.) and have your team take plenty of photos once you settle on a look so you and your stylists are all on the same page. Your makeup trial also allows you to test out new types of makeup as well as to try false eyelashes to ensure that you don't have an allergic skin reaction.
- Schedule your Groom's services - hair cut/clean up, beard shaping, hot towel/hot lather shave, waxing or brow/nose/ear hair trim, manicure

## **1 Month Before:**

- Book your final facial along with a hair conditioning treatment to make sure your hair looks its best. Consider a hair glossing or deep conditioning treatment, depending on your unique hair needs.
- Start building your makeup collection if you plan to do your own makeup. Try out the products to test their color and durability, as well as your skin's reaction to them. If you aren't sure where to start, visit Glow's Jane Iredale makeup counter to get guidance from a professional on colors that complement your skin tone.

## **2-4 Weeks Before**

- Schedule a trim to remove dry or split ends
- Confirm final details with your beauty team, return wedding party forms and provide addresses and directions for any offsite services. Update any changes to your contact information or the day-of contact for your wedding day.

## **1-2 Weeks Before**

- Touch up your color. While you don't want a dramatic hair color transformation in the weeks leading up to your wedding, you do want a fresh color. Give your hair a touchup about one or two weeks before your wedding.
- Schedule waxing services (Underarms, legs, face, etc.)
- Final teeth whitening appointment
- Get eyebrow wax and shaping
- Deep condition your hair and schedule a shine treatment
- Pack and label hair accessories for the trip to the salon

## **1-2 Days Before**

- Final confirmations of your wedding day schedule and notify the salon of any last minute substitutions
- Prepare a touch-up kit of powder, lipstick or gloss, mascara
- Get your manicure and pedicure
- Get your, HydraFacial
- Get your spray tanning
- Have your hair washed and a blow-dry from the salon to ensure that the proper products are used for styling the next day
- Wash your hair the day prior - to ensure that the core of your hair is dry and allow for better hold of your style

## **The Wedding Day**

Shower and be ready prior to your appointment time, use a tight shower cap to keep hair dry

## Altitude with Attitude... Tips for High Altitude Weddings

- Drink LOTS of water, your body loses hydration at a higher altitude and that can cause headaches, dehydration and altitude sickness.

- Skin Hydration - Like internally, your skin can show signs of dehydration and such a high altitude in the form of increased wrinkles, dark patches and splotchy skin. Use a more intense moisturizer to keep skin hydrated.

- Oxygen Boosters - Local pharmacies and shops sell 'canned oxygen' that can revive you with a boost of "O"

- Watch Affects of Alcohol - Drinking libations at a higher altitude can affect you much faster than lower levels. Watch your intake carefully and alternate with water

- Watch for symptoms of Altitude Sickness - flu like symptoms including headache, nausea, stomach issues, difficulty breathing and sleeping

### BRIDAL BEAUTY TIP...

Have a clear plastic bag (think dry cleaner's bags) available when you get into your gown, use it to cover your head and face to avoid getting makeup on your dress

# The Bridal Hair Collection

## KÉRASTASE PARIS

**Prepping your hair for the big day can be daunting. Join our bridal hair repair plan, discover tips & tricks and get inspired by our intimate knowledge of the modern woman's hair needs.**

**It's the biggest day of your life and you want your hair to be in the hands of a professional. To go about getting the 'do of your dreams: Rely the expertise of a bridal hairstylist who specializes in weddings. And remember, it's important to decide on a hairstyle that reflects the aesthetic of your special day.**

**How To Choose Your Wedding Hairstyle** When choosing the perfect hairstyle, it is very important to take several factors into account. Experts agree that it is important to show your hairstylist pictures of what you like, but also what you don't like; this serves as an important guideline to set your stylist in the direction of what you want.

**Match your wedding hairstyle with your dress.** It's important to coordinate your hairstyle with your wedding dress. For example, if your dress has a low neck, opt for loose hair. If your dress has a high neck, then an updo will look very elegant

**Your face shape will play a role in choosing your wedding hairstyle.** It's all a game of balancing your silhouette. For example, if your face is oval and long, you should fix a low hairstyle in order to balance out the shape. Conversely, if you have a round face, prioritize a higher updo in order to elongate your profile

**Consider your hair color for your wedding.** It's necessary to reflect on your hair color when deciding on your hairstyle. For example, if you have multiple tones in your hair, because the style will stand out more, thanks to the varied shades. Blonde hair tends to have more contrast, for example. If you have dark hair, consider letting your hair loose and adding beautiful curls, or fixing an elegant chignon. Remember to freshen up your color up 1-2 weeks before your big day.

### Three Popular Hairstyles For The Big Day

**Bohemian Braid** You can't get much more effortless than boho hairstyles. Wearing your hair loose creates a natural and romantic look that is inherently feminine and elegant. From side braids to half ponytails, there are lots of variations of this style to you can choose from. It also goes perfectly with hair accessories such as a flower crown

#### Classic Chignon

Wedding trends come and go, but the classic chignon is timeless, sophisticated, and always a winner! The best thing about this fairytale hairstyle lies in its versatility—there are so many versions, you are sure to find one that suits your taste.

#### Loose Hair, Don't Care

Whether you were looking for high-volume waves or soft twists embellished with flowers, there are many ways to make your wedding hairstyle romantic and elegant simply by letting your beautiful tresses hang free.

**1. What hairstyle and hair care questions should a bride have for her hair stylist?** Great questions for a bride to have for her stylist are: What can I do to make my hair look as healthy as possible for this style? Is this style best suited for my face shape? Should I have any products in my hair on the big day? Is this hairstyle best for my hair type? In addition, does this hairstyle go with my wedding dress or wedding style?

**2. Is there a certain hair care range that would be best for me?** Talk to your stylist and they can do a simple diagnosis and design a customized system of hair care just for you!

**3. How long does a hair diagnosis from a stylist take?** A diagnosis should only take 5 minutes.

**4. How do I determine what length is the best length for my wedding hair?** It is always good to get an inspirational photo and schedule a consultation with your stylist. Then you can determine the length your hair should be for your wedding.

**5. How fast can my hair grow?** If you are using Extentioniste regularly, you can expect up to 2 inches in 3 months!

**6. Will the Extentioniste In-Salon Treatment effect my hair color?** The Extentioniste in-salon treatment is color safe.

**7. What are the best ways to ensure the Extentioniste ritual is the most efficient?** Like a fitness or a nutrition program, the Extentioniste ritual is most effective when done consistently.

**8. What are the best hairstyles for long-haired brides?** The best hairstyle for a long-haired bride could almost be almost anything! It also depends on other factors as well. For instance, the density of the hair, the hair texture, and the health of the hair are all key components also. It is always beneficial to discuss all your option with your stylist prior to your big day!

**9. When should I begin my Extentioniste ritual to ensure long hair for my wedding?** As soon as possible would be most beneficial!

**10. Are there any questions that my stylists should be asking me?** Your stylist should be asking you about what you do to your hair on a daily basis and what product regime you are currently using. Other questions could be about whether you like your hair around your face or how you envision yourself on your wedding day. They may ask to see a photo of your dress as well and whether you will be wearing a veil or a head-piece. They should be asking as many questions as possible to figure out the perfect bridal hair style for your big day!

**11. Are there any products for men's hair that you can recommend for my fiancé?** Yes, we offer a line for men! There are so many great products that he could benefit from! I would schedule a diagnosis for him as well to ensure you are using the right product.
