

2024 Grades 3-8 Math Proficiency Rate

NYS Charter Schools and Charter Host Districts

Aggregate proficiency rates are calculated as a weighted average of all 3-8 grade levels tested in each school and district. For 6th-8th grades, data includes both traditional and Regents math exams. Proficiency is defined as levels 3-4 for 3-8 exams and levels 3-5 for Regents exams.

Schools and districts with suppressed data in any grade will be indicated as 'Suppressed' and will not have an aggregate score. Instances where a district's proficiency rate on a suppressed exam would not change the aggregated outcome are included here based on the data available, as the overall rate remains the same in all potential scenarios.
