Osteoarthritis

VAS: Indicator of pain relief

Case Study (X-Ray Analysis)

Clinically proven, Wellnex Collagen Peptides helps in regeneration of cartilage & flexibility of joints for mobility and improves bone density. High content of Bioactive Di-Peptides PO & OG repairs Joint Cartilage, suppress Collagen degradation & Joint calcification and enhance Lubricant production in Joints.

		N	Grade 1 (N)	Grade 2 (N)	Grade 3 (N)
Baseline (Grade 2)	Wellnex	19	0	15	4
	Placebo	11	0	8	3
Baseline (Grade 1)	Wellnex	19	2	17	0
	Placebo	11	0	10	1

X-Ray Analysis Summary

Results in 90 days

>78% people got positive results

10 gm per day dosage

No Allergy & Side-effects

Low Calorie

Zero Sugar & Cholesterol

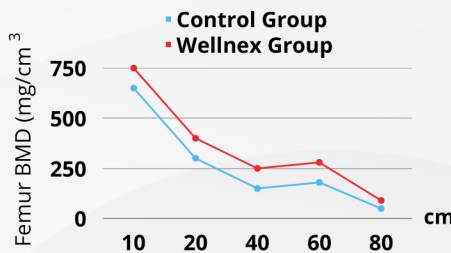

360 degree Collagen partner

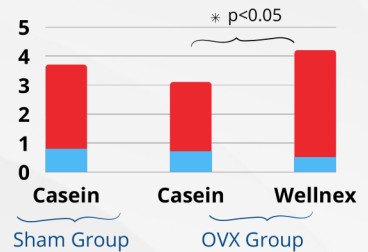

Largest Collagen manufacturer in Asia

Osteoporosis

Bone Mineral Density

- Gold-standard human clinical studies
- Improves Joint flexibility and Mobility
- Regenerates Cartilage

Femur Rupture Strength

- Reduces Joint pain
- Superior dissolution
- Highly palatable
- Suitable for varied product formats

Clinical Study Findings

- ✓ Significant improvement in WOMAC score
- ✓ Significant improvement in VAS score
- ✓ Excellent improvement in Bone Mineral Density
- ✓ Remarkable improvement in overall Quality of Life
