A Unique Blend of Proven Horned & Polled
Genetics are the Foundation for 4T
“Profit Performance Herefords!”

Welcome...
Welcome to our Retirement Dispersion Sale. This cowherd represents a lifetime commitment and passion to good ranching, the beef business and good Hereford cattle.
The “Tipton Ranch Story,” pages 2 and 3, is a statement on how our ranch operation and Hereford program evolved. Our Herefords are the product of a real effort to breed truly predictable, balanced, problem-free, “Profit Driven” cattle. They’ve made land payments, put our family through college and more!
It’s time to reap the benefits of our life’s work and more spend time with family and enjoy the interaction with our very vibrant grandkids’ active lives. It’s been a great ride!
Thanks for your interest, please call with your questions ...we’ll see you sale day!

Mike & Belinda Tipton
and Family

Ogallala Livestock 308/ 284-2071
Belinda and I were both raised in Hereford families and showed our own Herefords at County, State and some National Shows. While attending University of Wyoming, we worked for several ranches and registered cattle programs of various breeds—Herefords, Angus, Salers and Limousin. And after graduating from UW, we gained a lot of education!

Our own registered Hereford operation was started 49 years ago in 1972 in North Park Colorado, 32 miles southwest of Walden, 8600 feet elevation. Belinda was teaching school in Walden and Mike worked for Chedsey Cattle Co. Our first major acquisition was from Alfred & Ferrell Meeks’ Upstream Ranch, Nebraska, when we selected 35 bred heifers… daughters of Golden Real 72 and Upstream Dundy 187. As our herd evolved, we continued adding females from breeders across the country—Descheemaeker, Gies, Duncan Ranch, K&B Herefords, Wiswall & TT Herefords, Groshans, Bohmont, Largent & Sons, John Rice, Jr., T-Cross and WHR. We aggressively bred A.I. using semen from a “ton” of different high profile sires in search of genetics that worked for us.

This process of growing our breeding program was the start of a lot of evaluation, selection and sorting that resulted in both, success and disappointment. We kept the ones that worked… and the ones that didn’t “cut it” got a trip to market. We hammered away with stock selected as “best.” While still headquartered in North Park, we A.I.’d our commercial cowherd to two of Herefords’ first noted Line One sires, HH Advance C756 “Hatchet” and WCF L1 Domino 6313 “Clown.” Sire partnership owner Dale Barber, Texas, shipped the steer calves to Texas to finish for feedlot and carcass data. That venture was our introduction to measured performance…and from then on, we realized there was more to the cattle industry than the showring.

Thirty-seven years ago in 1984, we became first-time land owners moving from North Park to our present Western Nebraska Sandhills location. It was the 1980’s; we’d been presented the opportunity to assume a loan; and interest was over 20% Reality set in… a man needed to get innovative or he wasn’t going to make it! We built the feed yard and started custom feeding cattle along with running our own registered/commercial cowherd. Feeding cattle in volume for customers in Nebraska, Kansas, Colorado and neighboring states was a great learning experience.

After several years of vastly broadening our knowledge about the whole scope of the cattle business, we financed through Producers of Omaha allowing us to own all the cattle in the feed yard and our 1800 head yearling operation. Now that we had “skin in the game,” it became evident there was a real difference between a “good one” and industry average. We were determined to breed and develop Hereford cattle that would not just compete but would turn a profit compared with the average black cattle on feed.

“PERFORMANCE is ultimately a combination of all elements that add up to “PROFIT!”
Our “Profit Strategy” started with a 450 acre pivot irrigation grazing program double cropping rye, triticale, turnips and oats … another real eye opener. It seemed some highly promoted bloodlines failed miserably while others kept turning a profit. We proceeded to “Keep the best and culled the rest” without bias for EPDs or pedigree. The information garnered from our commercial cowherd, grazing program and 4000 head feedlot closeouts with carcass data helped drive our program to breed more profitable cattle for all segments of the beef industry.

There are a lot of ways to make money in the cattle business and maybe even more ways to lose money. Based upon our years of experience backed by hard data, it is our opinion that avoiding fat cattle discounts (YG 4 & 5 / no yield/ no grade/ overweight carcasses), yearling cattle cutoffs and cowherd problems (disposition, eyes, udders, late breeders) … eliminating all those issues will add more to your bottom line than one realizes. “PERFORMANCE” in our operation is a combination of all the elements that ultimately add up to PROFIT.

At first, we received group results on finished cattle from the packer at harvest. Then, 10 years ago, we started paying for individual carcass data identified by our tag numbers … another real eye opener! Some highly promoted bulls were beaten soundly by our own sires. Again, “we kept the best and sorted the rest.”

Early in our herd’s development, we competed aggressively with bulls and females in the showing and at consignment sales. We showed several Champion and Reserve bulls, high sellers, Futurity winners, Champion Pens of Bulls and State Fair Champions … we were holding our own and then some. But, reality sank in, the perception we were creating was a combination of phenotype, politics and a large management code. It had little to do with the needs of most all the cattlemen to whom we were providing genetics. So, for the benefit of our customers and our own program, we reinvented “Profit” with a goal to satisfy all segments of the beef industry … and, still breed one that was “ok” to look at.

After 49 years, our Hereford cows and the genetics behind them are the product of a “Profit Driven” program based upon real world data. Objective results from our commercial cowherd, yearling grazing operation, ranch feedlot closeouts and packer harvest data have all contributed to the selection process in our purebred Hereford program … and sorted with a quality conscious “cowboy’s eye.” For the beef business to be successful, seedstock genetics have to work for all segments as we strive to produce quality protein for our consumers. Being the best in a single trait program ends up costing money. We have strived to be the “Best for Profit,” breeding a balanced Hereford that contributes to profit in all segments of our business … from cowherd to carcass.

Consistent … predictable … performance balanced … Net Profit … that’s our Tipton Ranch Hereford program. — Mike Tipton

“Being “Best” in a single trait costs money. We strive to breed “Best for Profit” balanced Herefords.”

“Our Hereford cows and their genetics are product of “Profit Driven” real world data from our commercial cowherd, yearling operation, feedlot closeouts and carcass evaluation.”
THE FOUNDATION SIRES...

A linebreeding x line-cross breeding plan uniquely concentrates the influence of these proven Hereford Maternal and Performance Sires!

We invite breeders to go to American Hereford’s www.hereford.org website and research extended pedigrees of this “secret” gene pool of intensely bred cattle.

BID ONLINE: CattleUSA.com ... Log-in, pre-register to establish
an account ... www.cattleusa.com ... or call 308/ 237-4600.
For assistance and final bidding approval, call Ogallala Livestock
308/ 284-2071.
MOTELS: Ogallala, NE ... Holiday Inn Express 308/ 284-6080;
Americinn 308/ 210-2162; Best Western Plus 308/ 284-7011;
Quality Inn 308/ 284-3623; Days Inn 308/ 210-2524; Super 8 308/
284-2076.
AIRPORTS: Commercial air service available to Denver, 210
miles southwest or North Platte, NE, 50 miles east. Private
planes may land at Ogallala (5000 ft. paved runway). Call Mike
Tipton if you need transportation.
TERMS & CONDITIONS: Terms of sale, check or cash.
Every sale animal will be sold to the highest bidder with auction-
eree settling bid disputes. Announced changes in catalog informa-
tion on sale day take precedence over printed material. All
cattle are the buyer’s property as soon as sold and will be cared
for a reasonable length of time at the buyer’s risk. Any person
attending the sale does so at his own risk. Neither sale manage-
ment, owners, nor any person connected with this sale, assumes
any liability, legal or otherwise.
In the event of default in any part of the Terms & Conditions
for this sale by buyer or seller, it shall be the responsibility of the
buyer or seller to instigate any action needed to bring about a
fair settlement of any claims and to be responsible for any and
all costs.

GUARANTEE: Every animal in this sale, to the best of our
knowledge, is free of disease or defect. Any known defects will
be noted at sale time. Cattle are at the buyer’s risk, expense and
responsibility from the time of purchase. No other warranty or
guarantee is expressed or implied.
PREGNANCY STATUS: All bred females will be pregnancy
tested with results announced sale day. Pregnant females are
sold as breeders without further guarantee.
HEALTH: Herd health is excellent. Individual health papers
will be furnished for shipment anywhere in the U.S. All females
are officially Calhoun Bangs Vaccinated. A complete summary
of the Tipton Ranch breeding & weaning vaccination program
is listed on page 10.
REGISTRATION & TRANSFER: American Hereford
Assn. registration certificates will be transferred upon request
to buyers at seller’s expense. Buyers must give complete
transfer information at time of settlement.
TRUCKING: All buyers are responsible for their own trucking.
No delivery is provided by Tipton Ranch but we can assist in
making trucking arrangements.
LOADOUT: Cattle loadout is available immediately upon
completion of the sale. Loadout papers will be provided by
sale clerks upon settlement. Please check to verify correct Lot
Numbers when loading!
INSURANCE: Arrange insurance through Liberty Mutual
Equine. Contact Jim & Cheri Gies, Eaton, CO, (c) 970/590-0500,
(h) 970/454-3836. Sale clerks will assist with insurance.
ABSENTEE BIDS: Anyone who cannot attend the sale may
place phone or mail bids by contacting Mike Tipton, Sale
Manager Jay George or any listed sale representative.
SALE MANAGEMENT: UNITED LIVESTOCK BROKERS, INC.
Jay George 605/ 391-6230 • 025 28th Rd. NW • Lebo, KS 66856
Sale management acts as agent only & assumes no legal responsibility.
