To whom it may concern,

Whitney Gall is very professional at what she does. Very helpful on informing clients and our employees on information about the health insurance that she has to offer.

It was a pleasure to have her in and helping our employees. I am sure glad we had her in here to make sure our employees are covered on and off the job with the extra coverages she offered. 10/10 and would recommend to anyone looking for addition health care options.

Whitney took the headache out of the process, and took the weight off our employees shoulders when filing claims. The whole process was very efficient and easy to go thru.
