It's up to you as President to intervene and decide what is fair as the athletic dept way back have not given the 4 from '74 their much deserved recognition. You don't even know what we are proposing as a fair resolution.

I have forwarded all of your previous information to our athletic Director Mr. Dannen and asked him to respond based upon his understanding of the situation. As this is a matter directly related to the athletic department it would be most appropriate for him to decide how, when or if to proceed along the lines you have suggested ...thank you again for all of the information you have shared.

See you have been busy with your State of the University address and managing challenges financial and others. You have the "Profound opportunity" to finally recognize the forgotten 4 from '74 without any additional cost to the UNL. I just can't understand why the University is resisting. Is it a legal issue? Certainly not a moral, doing what's right reason.

Sent	Aug 22, 2025	4026614411	It's been 10+ months since I hand delivered the evidence to Troy, 4 months since I sent you a

	12:59:24 PM		letter, a couple of months since our chance meeting at the CWS and now the start of another Husker Volleyball season. The 4 from '74 have been more than patiently waiting. I would appreciate you giving this matter immediate attention. We would welcome a face to face meeting at your earliest convenience. Thank you! Go Big Red!

As you asked me in the concourse of the club section at the CWS, "Why wouldn't they want to recognize them?" This is more evidence of why the 1974 Husker Volleyball team was, in fact, without any doubts the first team. Thanks! Les Robbins on Terry Pettit FB page, he posted about upcoming interview with Coach Pat. Here is his post https://www.facebook.com/share/p/1C29X6cTwU/ Pat Sullivan, Nebraska's first varsity volleyball head coach, will be our guest on the next "Inside the Coaching Mind" podcast. Pat coached the Huskers in 74', 75', and 76' before becoming the head women's volleyball coach at George Washington from 1978-1986. Pat is in the George Washington Athletic Department Hall of Fame. The podcast will be available at terrypettit.com on July 5th
