**Managing Food Delivery**

- Increase the frequency of cleaning and disinfecting of high-touch surfaces within the vehicle, wiping down surfaces using a regular household cleaning spray or wipe
- Practice social distancing when delivering food, by offering "no touch" deliveries and sending text alerts or calling when deliveries have arrived
- Keep cold foods cold by keeping enough coolant materials, such as gel packs in insulated coolers

- Keep hot foods hot by ensuring insulated cases are properly functioning
- Keep foods separated to avoid cross contamination, for example keep raw foods separated from cooked and ready-to-eat foods
- Routinely clean and sanitize coolers and insulated bags used to deliver foods

**\$190<sup>99</sup>**

## Don't Overlook Janitorial Cart Cleaning

There are many places where dirt and germs can be trapped on a cart. When cleaning carts, remove all supplies first, then focus on:

- Any point of contact where another cleaning tool is going to be touching the cart
- Where the surface of the cart comes in contact with the building (walls, floor, etc.)
- Handles that workers regularly touch with bare hands or with soiled gloves

## Litter Compacting Tool

- Plastic chart wipes clean

**Wash Hands Before and After Using Gloves**

Washing hands is important even if you're wearing gloves. Be sure to wash your hands before and after using gloves to prevent the spread of germs. You can contaminate gloves with germs from your hands when you put on gloves. Contaminated gloves can spread germs to your hands when you remove the gloves.

## Hand Washing Habits

*Make regular hand washing a habit, especially before and after certain activities.*

- Before, during, and after preparing any food
- After handling raw meat, poultry, seafood and eggs
- Before eating
- After touching garbage
- After wiping counters or cleaning other surfaces with chemicals
- After coughing, sneezing or blowing your nose
- After you have touched an item or surface that may be frequently touched by other people

To learn more visit: [www.cdc.gov](http://www.cdc.gov)

## Keep Your Commercial Dishwasher Clean

*Always scrape, spray rinse and remove as much waste as possible from dishes before putting them into the dishwasher.*

- 1) Wash the inside of the dishwasher
- 2) Drain the dishwasher, leaving it open for ten to fifteen minutes to cool down
- 3) Clean spray nozzles with vinegar to help prevent hard water buildup
- 4) Empty the filter of debris by hand and use a brush with detergent to scrub it clean
- 5) Clean wash/rinse arms and jets
- 6) Allow for air circulation to prevent bacteria buildup

## Bottle Coolers

- Black coated steel exterior
- Built-in bottle opener and cap catcher
- R290 refrigeration
- Lockable stainless steel sliding lids
