## Finance Options

**Open Bar:** Rate per guest that covers all alcohol consumed during the contracted event period. Great package for events that expect strong consumption by guests.

**Consumption Bar:** Provide us with a budget for the bar portion; when we hit this dollar amount, we can either extend or switch to a cash bar. Good for lighter alcohol consumption. Please be aware that, based on the event, we will have a beverage minimum.

**Cash Bar** (available on a case-by-case basis): We will collect payment from your guests for the beverages; we accept cash, credit card or Venmo. Please be aware that the beverage minimum applies to cash bars. If total beverage spend doesn't exceed the minimum, the client is responsible for the difference.

## **Why can't we provide our own alcohol?**

Per Vermont & New York Liquor laws, all alcohol must be provided by the bar vendor with Vermont or New York licenses. We have three added-on taxes/fees for all events. First is State tax, taxes in Vermont on alcohol is 10%. We also charge a 18% gratuity. The gratuity on any alcohol or beverage services goes to the event staff. The service charge goes to our prep & unpacking crews.
