Programming the DGT3000 Clock with typical tournament time controls.
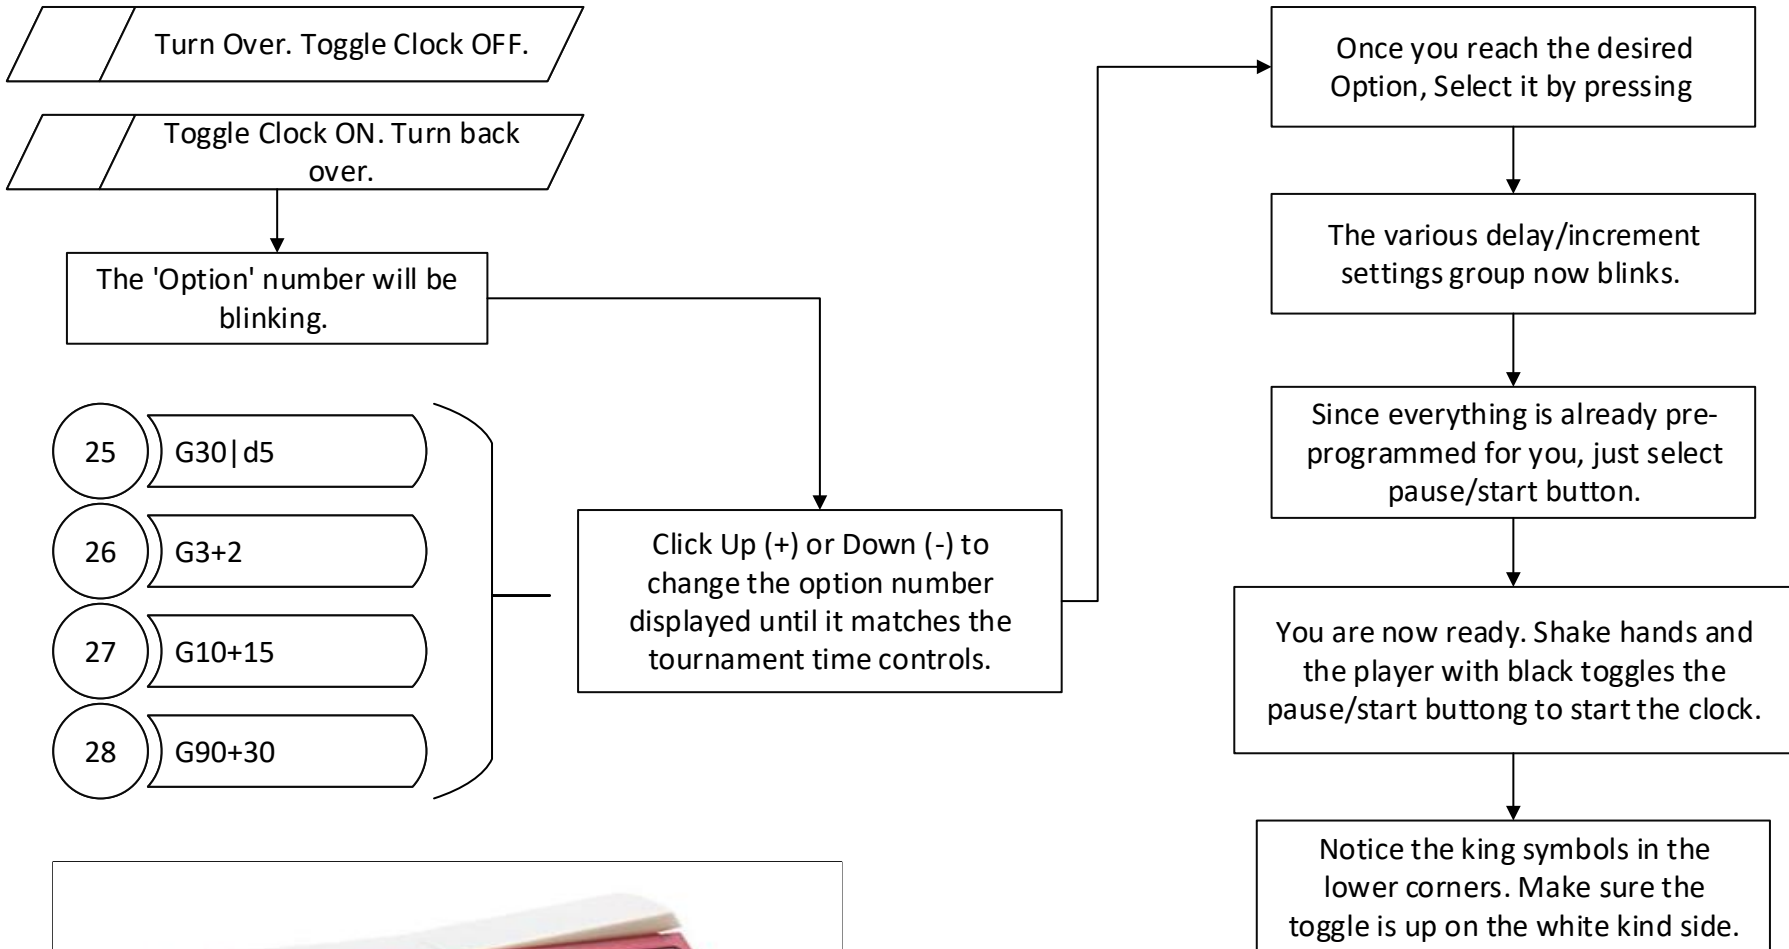

Turn Over. Toggle Clock OFF.

Toggle Clock ON. Turn back over.

The 'Option' number will be blinking.

25	G30	d5
26	G3+2
27	G10+15
28	G90+30

Click Up (+) or Down (-) to change the option number displayed until it matches the tournament time controls.

Once you reach the desired Option, Select it by pressing

The various delay/increment settings group now blinks.

Since everything is already pre-programmed for you, just select pause/start button.

You are now ready. Shake hands and the player with black toggles the pause/start buttong to start the clock.

Notice the king symbols in the lower corners. Make sure the toggle is up on the white kind side.
