Lounge #1

OUR FACILITY

OUR FACILITY

- Location: 10060 Brecksville Road, Brecksville, Ohio. Conveniently located by the turnpike, 77, and 271. Across the street from the soon to be complete Valor Acres ® which will have hotels, restaurants, etc. Regardless there are plenty of restaurants and hotels near by.
- Due to the work from home transition, we are leveraging the space of 'USA Firmware, LLC,' owned by Bob Scaccia who also is President of the club.
- Within the facility is a kitchen, bathrooms, refrigerator, microwave, free coffee, espresso, filtered water, a skittles room, two visitor or player rest lounges, a company store, rooms for private games and private instruction.

OUR FACILITY

- The facility has Wi-Fi connectivity for guests via the USAF-Guest network. The guess network password is on a placard. You can use this network for your own purposes as well as cast to the monitor that is in the member lounge.
- During events, members can still use the facility for other purposes. You can for example study, play against others, quietly review games with friends, just relax and watch TV in the lounge, or eat dinner in our kitchen (please clean up after yourself 😊).
- Please note any signs that state materials within are for USA Firmware employees only. If you wish to store something, please see a GCC representative.

OUR FACILITY

- The facility is also a place of work called USA Firmware.
- We need to keep the facility clean and orderly.
- Please discard of all waste and load the dishwasher in the kitchen if you use any glasses, etc.
- If the garbage is too full, please let the organizer know.
- Please setup your board correctly and turn off the clocks upon game completion.
- Please observe all signs and warnings in the facility.
- Please be sure to leave the bathrooms clean. Please notify the organizer if you notice that the bathroom doesn't look clean and professional.
