A stack of several books is shown against a textured, light-colored background. The top book is open, with its pages fanned out. A black rectangular box is overlaid on the open book, containing the text 'Dr. Denny Bates'. The other books in the stack are closed and have various colored covers (blue, green, brown, and white).

THE LEGACY PATH

— *Story Method*[™] —

Write Your Story. Preserve Your Legacy.[™]

INTRODUCING The Story Method

Have you ever thought about writing your story...

but didn't know where to begin?

Maybe you've said to yourself...

"I'm not a writer." "I wouldn't know how to organize it." "I don't have the time."

But deep down, you know something important.

Your story matters.

CAPTURE YOUR LIFE LESSONS

Follow our structured guide to organize your memories into a clear, engaging narrative.

INTRODUCING The Story Method

You've got a lot on your mind and in your heart that needs to get out

Your life experiences...

your lessons...

your faith journey...

your struggles and victories...

they all carry wisdom that someone else needs.

My name is Dr. Denny Bates, and for years I've helped people preserve their stories through books.

INTRODUCING The Story Method

And now, I've developed a new process designed to make that journey simpler, faster, and more accessible.

It's called **The Legacy Path Story Method™**.

This is a guided publishing system created for individuals who want to turn their life story into a professionally formatted book in about **60 days**.

Yes... sixty days.

Not years.

Not endless frustration.

But a structured path forward.

How It Works

INTRODUCING The Story Method

First, we begin with **Story Discovery**.

You'll complete a guided memory questionnaire that helps uncover the most important chapters of your life – your childhood, your career, your faith journey, your turning points.

Next comes **Story Crafting**.

Using advanced AI tools responsibly – and always under my supervision – we transform your memories into a manuscript that preserves your authentic voice.

You remain the author.

Your story remains yours.

Refinement

After the first draft is created, we move into **Refinement**.

You review the manuscript.

We make corrections.

We polish the story.

You receive **two revision rounds** to make sure your book truly reflects your life.

Professional Packaging

Then comes the exciting part.

Your story becomes a real book.

We professionally format the manuscript, design a **custom cover**, and prepare everything for publishing.

Finally, I guide you through uploading your book to **Amazon KDP**, so you remain the author and owner of your work.

Value Positioning

This entire process begins at **\$2,497**.

That's a fraction of the cost of traditional ghostwriting services, which can run well over \$10,000.

But more importantly...

it gives you something priceless.

A book that preserves your life story for generations.

If you've ever felt the pull to write your story...

If you believe your experiences could encourage others...

If you want to leave something meaningful behind for your family...

INTRODUCING The Story Method

then **The Legacy Path Story Method™** may be exactly what you've been looking for.

You've already lived the chapters.

Now let's preserve them.
