Pain Cream

Changing lives naturally

Ala-Septic

**Treatment for skin cancer, eczema,
psoriasis, dermatitis, acne and more!**

**Introducing Ala-Septic's "Miracle Gold"
Pain Cream for osteoarthritic and other
types of pain**

Ala-Septic Lotion

So What's In It?

- ▶ Ethyl Alcohol
- ▶ Purified Water
- ▶ Salicylic Acid
- ▶ Melaleuca Alternifolia
- ▶ Licorice
- ▶ Iodoquinol .3%
- ▶ Tocopheryl Acetate Vitamin E
- ▶ Aloe Barbadensis
- ▶ Larrea Tridentata
- ▶ Benzoic Acid

Salicylic Acid

- ▶ Topical salicylic acid is used to help clear and prevent pimples and skin blemishes in people who have acne. Topical salicylic acid is also used to treat skin conditions that involve scaling or overgrowth of skin cells such as psoriasis (a skin disease in which red, scaly patches form on some areas of the body), ichthyoses (inborn conditions that cause skin dryness and scaling), dandruff, corns, calluses, and warts on the hands or feet. Salicylic acid is in a class of medications called keratolytic agents. Topical salicylic acid treats acne by reducing swelling and redness and unplugging blocked skin pores to allow pimples to shrink. It treats other skin conditions by softening and loosening dry, scaly, or thickened skin so that it falls off or can be removed easily.

Melaleuca Alternifolia

- ▶ Tea tree oil is obtained by steam distillation of the leaves of *Melaleuca Alternifolia*. Tea tree oil is purported to have antiseptic properties and has been used traditionally to prevent and treat infections. Human studies have focused on the use of topical tea tree oil for fungal infections (including fungal infections of the nails and athlete's foot), acne, and vaginal infections.

Licorice

- ▶ A natural alternative to hydrocortisone and it is used in many formulations to activate and increase the effects of other herbs. It acts much like your body's own natural corticosteroids. Licorice decreases generation of damaging molecules called free radicals at the site of inflammation and it inhibits an enzyme that's involved in the inflammatory process

Iodoquinol .3%

- ▶ An antifungal and corticosteroid combination used to treat skin redness and itching due to eczema or infection. It may also be used to treat other conditions as determined by your doctor.

Tocopheryl Acetate

Vitamin E

- An antioxidant that protects cell membranes and other fat-soluble parts of the body, such as low-density lipoprotein (LDL; “bad” cholesterol) cholesterol, from damage. *Where is it found?* Wheat germ oil, nuts and seeds, whole grains, egg yolks, and leafy green vegetables all contain vitamin E.

Aloe Barbadensis

Aloe Vera leaf contains more than 200 different constituents. The juice contains, on average, more than 99% water. Some constituents boost T-lymphocyte cells which help promote skin healing and neutralize many of the enzymes responsible for damaging the mucosal wall.

- Aloe-emodin
- Aloins, Barbaloin and Isobarbaloin
- amino acids
- amorphous Aloin
- approximately 96% water
- enzymes
- essential fatty acids (anti-inflammatory).
- essential oil
- Galactomannans (long chain sugars derived from plants)
- glycoproteins (protein-carbohydrate compounds that speed the healing process by stopping pain and inflammation)
- minerals
- polysaccharides (a type of carbohydrate that stimulates skin growth and repair)
- resin
- vitamin C
- vitamin E
- Zinc

Larrea Tridentata

- ▶ Often referred to as "creosote bush" "Larrea" or "Shegoi" inhabits the deserts and canyons of southwestern United States and Mexico.
- ▶ Virastatin, the extract from Larrea-tridentata, works by inhibiting aerobic combustion in the mitochondria of cells. This slows down cellular processes, including replication of viruses and growth of bacteria. It is thought that this perpetual slow motion is why the plant lives for as long as it does. The resins excreted by the plant, also inhibit the growth of other species of plants in its immediate vicinity effectively competing for water and food resources in harsh desert climates. The patented processing methods used to produce Virastatin are specifically designed to eliminate the purported hepatotoxic compounds (liver toxins) identified with inferior products.

AMAZING RESULTS

See for yourself...

Psoriasis on elbows

Day 2

Day 5

Day 6

Burns

10 weeks later
collagen restored

Dyshidrotic Eczema

After months of use
Skin disorder has NEVER returned
after 7 years

Acne

After 2 months

It helps podiatry issues too!

- ▶ Toe nail fungus
- ▶ Cracked heels
- ▶ Nail fungus
- ▶ Athlete's foot
- ▶ Foot odor

Anti-aging Benefits

- ▶ Reverses sun damage
- ▶ Smooths wrinkles
- ▶ Firms skin
- ▶ Provides moisture
- ▶ Reverses pigmentation disorders such as age spots, uneven pigmentation and port wine stain birthmarks

Effective On Even More

- ▶ Effective on animals for wounds and dermatitis
- ▶ Effective in dental industry (packing in root canals, periodontal disease, oral cancer)
- ▶ Effective on rosacea
- ▶ Effective on old scars including acne pock marks
- ▶ Effective on peristomal wounds

That's not all...

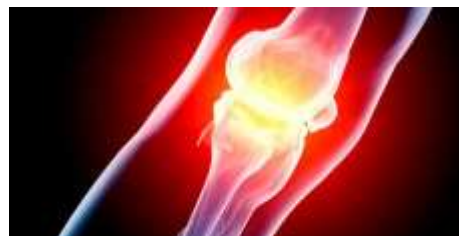

and

extraordinary

Osteoarthritic Pain Cream

- ▶ Nicknamed by many users as their “Miracle Gold Pain Cream”
- ▶ Used routinely by Dr Oz’s orthopaedic surgeon consultant for her mother
- ▶ Numerous forms of arthritic pain disappearing within 30 minutes with full mobility
- ▶ Fused joints taking mere weeks for full effectiveness
- ▶ Users had no need for knee replacement surgery as this cream began regrowing cartilage
- ▶ Effectively treating arthritis, osteoarthritis, rheumatoid arthritis, neuropathy, carpal tunnel syndrome, fibromyalgia, psoriatic arthritis

How does this Miracle Gold Pain Cream work?

- ▶ Rather than using standard temporary pain killing components which do not accomplish long term relief, this miracle gold pain cream reduces inflammation of joints by increasing the natural lubrication between cartilage and bones stimulating the body's ability to produce new cartilage. These results relieve both symptoms and physiology effecting joints ultimately eliminating pain.
- ▶ The formula is based on studies of ancient civilizations - Aborigine and the American Indians in Southwest United States.

Ingredient List for the Miracle Gold Pain Cream

- ▶ Aloe Vera
- ▶ Biotin (Vitamin B-7)
- ▶ Boron-Broccoli
MSM
- ▶ Broswellia
Melatonin
- ▶ Bromelain
Extract Oil
- ▶ Colloidal Oatmeal Lotion
- ▶ Emu Oil
Turmeric
- ▶ Ethyl Alcohol
- ▶ Ginger Root
- Larrea Tridentata
- Liquid Glucosamine/Chondroitin/
- Neem
- Quercetin
- Vitamin B-17
- Vitamin E
