

À La Carte Pricing Guide

Transparent price structures to streamline your floral planning needs.
2025

Toni Delaney Photography

At Flora Samara, we believe in building authentic connections with our surroundings and through our actions.

Our goal is to accentuate what nature provides, seeking sinuous designs that connect and personalize the event space.

It's more than flowers. It's a holistic floral approach to creating lasting impressions for all of life's moments.

Floral Pricing Options

We believe nature and nature's ephemeral art should be accessible to all. We offer two transparent pricing structures based on client vision, flexibility, and values: full design service and a la carte.

À La Carte Florals

Minimum Order \$500

A la carte floral option is ideal for flexible clients who want beautiful designs with simple processing and are empowered to organize their event on their schedule. A la carte florals are perfect for straight-forward event needs such as elopements or small weddings, celebrations of life, or banquets. The process offers an efficient and seamless selection for event or design needs.

The Process

The client selects from a set menu of floral designs (select examples at left table), specifies their color palette, and the florist maintains artistic liberties based on seasonal availability.

The client independently manages floral pick-up, set up, and clean up at the event. Dillon, MT studio pick up only. Supply and material runs may be accrued at \$0.75/mi. Additional 20% fee for additional team member labor for large orders.

All florals are subject to availability. Select items are locally sourced, repurposed, and composted whenever possible.
