

Scrap Masters

Random Scrap Block Generator

THE ONLY RULE - There are NO RULES!

<https://www.youtube.com/@SewWellRobAppell>

Here are twelve different quilt blocks that all finish at $12\frac{1}{2}'' \times 12\frac{1}{2}''$ and have corners that will work nicely with each other. Each block has 36 units. (6 units x 6 units layout)

Each unit may have a variety of options for construction.

The more fabrics you have to work with, the more scrappy the block will finish.

Step 1 - Pick your favorite six pattern blocks, number them individually 1 - 6.

Step 2 - Roll die to pick your random scrap block 1-6.

Step 3 - Spin the color wheel to get your color family.

Step 4 - Roll the 20 sided die to see how many different fabrics you get to work with to complete the block.

Step 5 - Pick your fabrics to match the number allowed from the 20 sided die.

Step 6. Think in Color Family groups, and sort them as White, Gray or Black families.

Step 6 - Use the unit count at the bottom of each block pattern to quickly build the needed units with out much concern for matching fabrics.

****Don't worry about where each unit will land in the block yet, just make all the units needed. ****

Step 7 - Design the block following the pattern, to give the scrappy look, try to keep the same fabrics from touching at any seam.

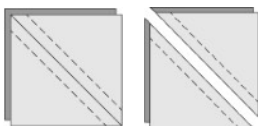

Suggested quilt top sizes

24 Blocks - 4 x 6 layout - $48'' \times 72''$

35 Blocks - 5 x 7 Layout - $60'' \times 84''$

36 Blocks - 6 x 6 layout - $72'' \times 72''$

48 Blocks - 6 x 8 Layout $72'' \times 96''$

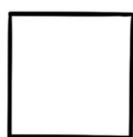

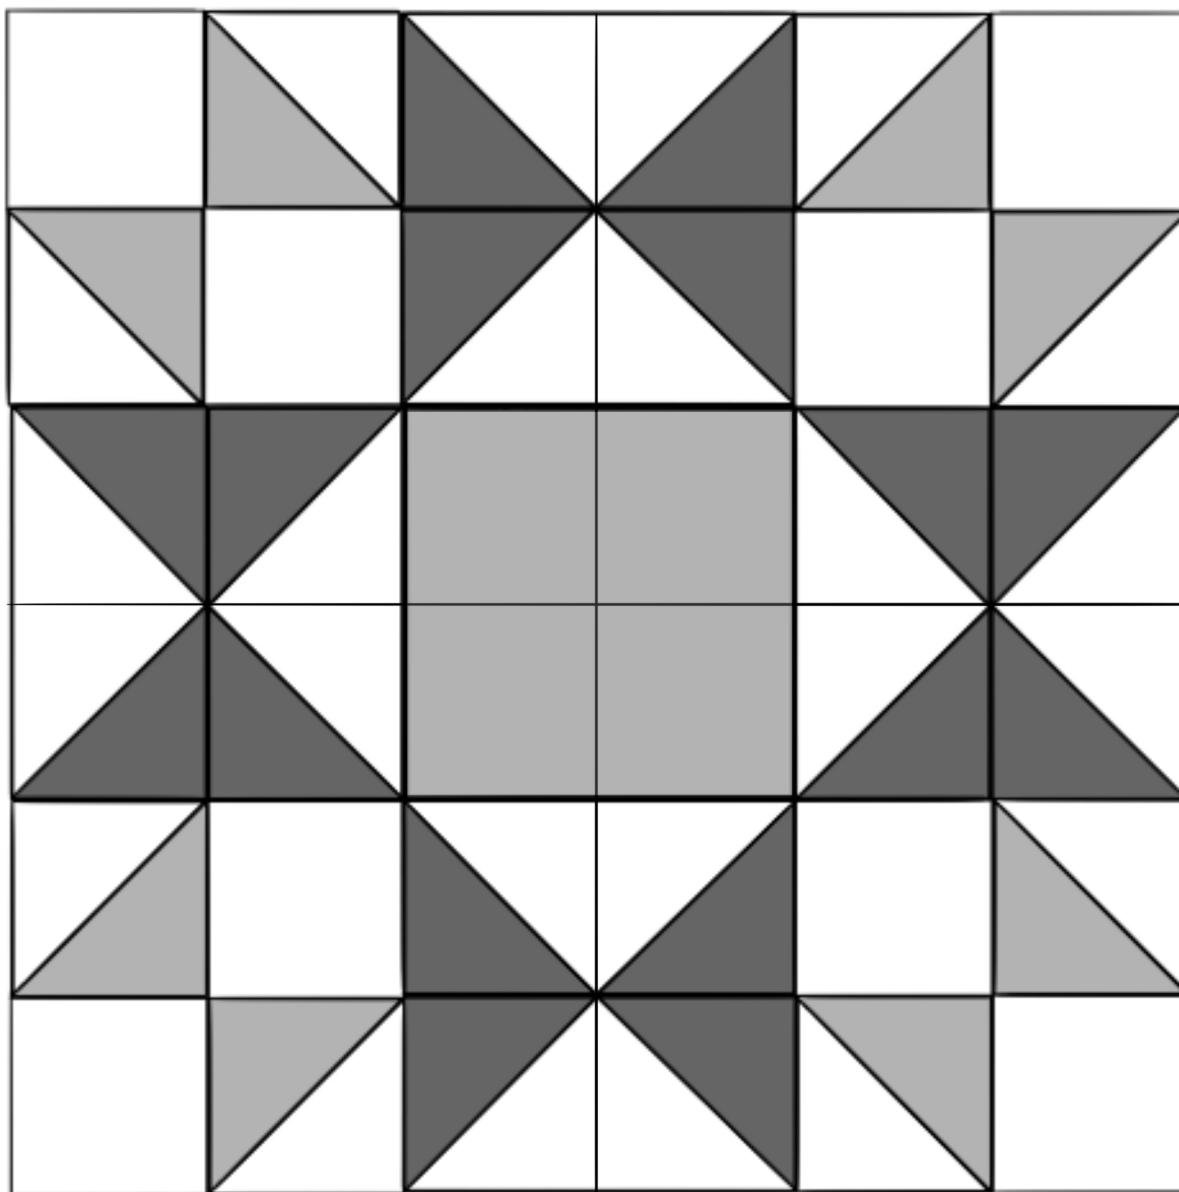

$2\frac{1}{2}''$ Half Square Triangle Units -

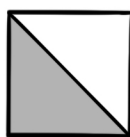

HST made two at a time with two $3'' \times 3''$ squares, right sides together.

Draw a diagonal line, sew $\frac{1}{4}''$ on either side. Cut on drawn line, trim both to $2\frac{1}{2}'' \times 2\frac{1}{2}''$
