2. TO REGISTER, select a course by clicking on LEARN MORE AND REGISTER
3. Click on REGISTER
4. Create an account and complete the registration process.

All courses begin October 10, 2022

#### [Cisco Networking Essentials](#)

Learn basic networking concepts and skills you can put to use right away. (Upon completion you are ready for the NET+ course)

#### [Cisco Cybersecurity Essentials](#)

Discover the world of cybersecurity and its impact, as you uncover the most common threats, attacks and vulnerabilities. (Upon completion, you are ready for your Security+ learning path)

#### [Cisco Internet of Things](#)

Discover how the Internet of Things is enabling digital transformations across a variety of industries and can expand career opportunities in the future.

#### [Cisco JavaScript Essentials 1](#)

Learn the essentials of JavaScript and computer programming from scratch! (Upon completion, you are ready for Introduction to UNIX)

#### [Cisco NDG Linux Unhatched](#)

Learn basic installation and configuration of Linux software and get introduced to the Linux command line. (Upon completion, you are ready for Introduction to UNIX)

**\*\*FEATURED\*\* [CompTIA IT Fundamentals Certification](#)**

The CompTIA IT Fundamentals (ITF+) exam focuses on the essential IT skills and knowledge needed to perform common IT tasks. These courses help you build these fundamental skills and prepare for CompTIA ITF+ exam objectives, including computer basics, networking, security, and troubleshooting.

**[Fiber Optics Emergency Restoration](#)**

Things happen right! It is how you respond is what matters. Learn fundamental concepts of Emergency Restoration with this short course.

**[Fiber Optics Fiber Foundations](#)**

The road to getting a Fiber Optics Installation begins with this module. Gain an understanding of what Fiber Optics Technology and how it works.

**[Fiber Optics Single-Mode Technology](#)**

Broadband buildouts require single-mode fiber. This module will introduce you to the technology that provides the backbone of the internet.

**[FCC GROL Certification](#)**

(CWA Districts 3,4,7,9 & Telecom/Tech only) A General Radiotelephone Operator License (PG) is required to adjust, maintain, or internally repair FCC licensed radiotelephone transmitters in the aviation, maritime, and international fixed public radio services. Not for the non-technically minded but if you have taken a TKT course you should do well here. CERTIFICATION is for life.

***NOT TELECOM- We have this for you!***

**[LinkedIn Learning](#)**

Get the skills you need to succeed by watching bite-sized video courses anytime, anywhere. More than 4,000 titles available including Excel, Diversity & Inclusion and more...

\*You must be a CWA member in good standing to be eligible.

YOU WILL NEVER BE ASKED FOR MONEY- This is a member benefit from CWA, Your Union.
