

HELP PROTECT "PISMO CLAMS" AT OCEANO DUNES!

TAKING UNDERSIZED CLAMS IS ILLEGAL!! FINES = \$1465 + \$20/CLAM

- Clams must measure 4.5" in length to be harvested.
- Most if not **ALL** clams are currently undersized!
- Many undersized clams have surfaced recently.
- Bury surfaced clams 2" deep in the sand, vertically, with hinge facing the ocean. See inset photo.
- If you see clams exposed, **DO NOT** drive on the wet sand & **NEVER** drive in the water!
- Help the clam population thrive so they can get to legal size once again!!

**IF YOU WITNESS CLAM POACHING CALL
888-334-2258 OPEN 24/7**
