COMMODORE'S REPORT

A YEAR OF TRANSITION AND RENEWAL

The past 12 months have been a period of considerable change for Hobsons Bay Yacht Club. Following the departure of Rod Austin and the appointment of Scottie Biggers, the Club navigated a demanding office transition. This included the departure of Erica Cookson, who after seven years stepped down as our Membership Officer, and Zoe Marques, our Bookkeeper, who also left the Club earlier this year. Both were dedicated and loyal employees, and a vital part of the HBYC family.

Throughout this period, our staff, volunteers and committee members maintained the day-to-day operations of the Club. Their professionalism and willingness to take on additional responsibilities ensured uninterrupted member services and enabled important strategic work to continue progressing. I also recognise and thank members for their patience and support as we worked through the transition.

I remain very positive about the Club's outlook. The recent appointment of Leon Berry as Club Manager, following Scottie's resignation, provides stability, practical experience and a strong understanding of our Club culture. Leon is supported by a capable and enthusiastic new team in the office, alongside dedicated staff leading Sailing, Functions and Training. The future appointment of a new Yard Manager will complete this team and position us well for a successful season ahead.

HIGHLIGHTS AND ACHIEVEMENTS

Securing or long-term future

The new 21-year lease with Parks Victoria is a major milestone, achieved after more than a decade of work. Our sincere thanks go to Tony Dawson and the Lease Committee for their persistence and stewardship, which have secured the Club's future and enabled confident long-term planning.

A vibrant sailing program

The Club delivered a strong sailing program throughout the season, supported by Angus Fletcher and our dedicated volunteers. Collaboration with the Port Phillip North Yacht Clubs (PPNYC) increased competition and participation. Thank you to Stephen Cheney, the Sailing Committee and all race and on-water volunteers.

Participation and community

Our social and community groups, Training Academy and cruising members remain central to Club life. Their activities encourage participation, strengthen connections and bring our motto, 'Sailing with the Community', to life. Thank you to Tania Mosheev, our Functions Coordinator, and the Bar team for your work serving our members and function guests. Our venue continues to be a sought-after location for local functions as well as club events.

Building a new office team

Lisa Olivier, Membership Services Officer, and Amanda Oliver, our Bookkeeper, have brought valuable skills and enthusiasm to the office team. Learning the Club's systems and processes during a time of change has required patience and determination. Their dedication is a credit to them, and we thank them for their commitment during a period of change. I also thank members for their understanding and support throughout the transition.

Leading on climate resilience

Rod Fuller's Climate Change Risk and Adaptation Workshop brought Port Phillip keelboat clubs together to identify climate risks and strengthen long-term planning. This important initiative supports our environmental responsibilities and the sustainability goals of HBYC Vision 2030.

GOVERNANCE AND STRATEGIC PROGRESS

Sound governance and adherence to our Constitution are fundamental to the Club's operation. I acknowledge Craig Jackson for his stewardship as Honorary Secretary and for the guidance he has provided to me and the General Committee throughout the year.

It is a credit to the members of the General Committee that, during a demanding year, they assumed additional responsibilities and continued to progress their Key Priority Actions under HBYC Vision 2030. This work supports our commitment to quality sailing and social opportunities, improved facilities, long-term sustainability, inclusion and responsible governance.

Training — Leo Eeckman
Finance — Marina Monz

Membership Development — Patricia Mackevicius and Cam Smith

Foundation — Tony Johnston

RECOGNITION AND SERVICE

I wish to recognise the General Committee for the outstanding work undertaken across their portfolios. Three members are retiring from the Committee or will not be standing again next year, and their contributions deserve special acknowledgement.

Kevin Le Nepveu - Kevin is a longstanding contributor who has held senior roles, notably House Captain, and has been actively involved in HBYC Vision 2030 and the Lease Committee over many years.

Patricia Mackevicius - Patricia has played an important role on the General Committee as a champion of inclusion and of the Club's broader social responsibilities. Through the Membership Development Committee and initiatives including R U OK? Day, she has helped strengthen our connection with members and the wider community.

Colin Orchard - Colin led the Club as Commodore through the difficult COVID period and subsequently stepped into the role of Club Captain, helping ensure our facilities were cared for and maintained.

We are grateful for the considerable contribution Kevin, Patricia and Colin have made over many years. I am confident they will remain valued members of the HBYC community and continue to contribute to the life of the Club.

CELEBRATING ACHIEVEMENT

It is a pleasure to acknowledge the following outstanding achievements during the 2025–26 season:

Bill Feore and the crew of Encore	Club Champion
Dan Kennedy	Member of the Year
Brett Harrison	Freeman Endeavour Community Award
Rod Fuller	Finalist, Victorian Sailing Awards — Innovation

I also recognise every competitor and contributor who makes HBYC vibrant and welcoming: our female skippers, youth sailors, international competitors, cruising sailors, race volunteers and energetic social members. Each brings a different strength to the Club, and together they create the character and community spirit for which HBYC is known.

LOOKING AHEAD

As I complete my first year as Commodore, I am confident the Club is heading in the right direction. We enter the new season with renewed leadership, an increasingly settled staff team, a strong volunteer base and a clear strategic direction. Finalising the lease will allow us to focus with greater certainty on our facilities and other long-term priorities, while our sailing, training and community programs will continue to create opportunities for participation and connection.

There is still much to do, and the Club will continue to face the operational, financial and environmental challenges common to community sporting organisations. However, our progress this year demonstrates what can be achieved when members, volunteers, staff and committee members work together with a shared purpose.

THANK YOU

I extend my sincere thanks to the Flag Officers, General Committee, committee chairs, staff, volunteers, sponsors and every member who has contributed during the year. Your time, expertise, patience and commitment have sustained the Club through a period of change and positioned us positively for the future.

Together, we will continue to build a strong, inclusive and sustainable Hobsons Bay Yacht Club—proudly ‘Sailing with the Community’.

David Gaylor - COMMODORE

VICE COMMODORE'S REPORT

It has been a privilege to lead our Sailing Sub-Committee, who continue to focus on delivering a broad range of sailing opportunities for our members, including competition, cruising, recreational sailing, and social opportunities for members and the community.

Thank you to all the members of the Sailing Committee and our Sailing Administrator, Stephen Cheney, for their hard work in ensuring that the club sailing calendar runs smoothly from boat registrations, safety audits, and mentoring to handicapping, results, and protest hearings. The Safety Audit team have reached full compliance with the race boats and are starting to mentor and upskill those with cruising boats.

On-water safety remains a critically important focus of the club and there has been a lot of work done in conjunction with the OH&S committee to review and update all our documentation and procedures. The Sailing/Racing Safety Management Manual has been refreshed, the Risk Register updated, and Inclement Weather, Heavy Weather Sailing, Short-handed Sailing, and Youth Sailing policies all further developed.

STRENGTH THROUGH COLLABORATION

The collaboration with RYCV and RMYS continues to strengthen the Port Phillip North Yacht Clubs (PPNYC). We continue to meet regularly to integrate calendars, race documentation, and volunteer resources. The inaugural PPNYC Presentation night was held at RYCV in May. It was a great evening to bring the three clubs together and celebrate the racing collaboration and the achievements made. Rod Austin was a fitting guest speaker, representing both his new position at Australian Sailing, and his drive in helping form PPNYC during his time as HBYC Manager.

The development of a combined calendar across PPNYC has not come easily. There are 173, 149, and 138 years of history respectively across the three clubs and some traditions are hard to let go of or modify. However a genuine effort to develop strength through collaboration is ongoing and hopefully this will reap benefits for all of us in terms of better race competition and sharing of knowledge and resources across the race management teams.

The course book has been through many iterations as the sailing administrators from the three clubs work tirelessly on making sure the courses remain relevant and engaging, and that there is appropriate separation from commercial shipping and other race fleets to avoid any on-water incidents. A lot of changes over the last few years have been done in collaboration with Ports Victoria.

The Friday Night dinghy racing has continued to build on relationships with RYCV and WSC, and we continue to explore other club collaboration opportunities to provide further options for youth.

IMPROVING OUR TECHNOLOGY

The use of technology in sailing is improving over time. This year saw the introduction of TopYacht Web which was a major update of the longstanding race results software. Whilst there were many teething issues to work through relating to race declarations, handicaps, and results across multiple clubs, persistence and determination from Stephen Cheney made it a success. A developing phone app called SailPro has been trialled on several events, especially long-distance, with some promising results. The Sailing Committee continues to debate the merits or otherwise of increasing use of this technology for some races as a tool to aid the land officer and enhance the club's duty of care to ensure long-distance entrants are accounted for until they make it back to safe port.

A RANGE OF SAILING ACTIVITY

Opening Day 2025 marked a special occasion with the official launch and naming of our new start boat *Angus Fletcher*. The naming ceremony featured Holly Fletcher, followed by a moving tribute delivered by Ash Bartle. Since her launch, there have been several planned modifications to make us fully race-ready, enhancing safety and providing increased comfort for our volunteers. Noel Robbins, the appointed Boat Captain, has done an excellent job in overseeing the upgrades and maintenance, training a group of enthusiastic volunteer drivers, and generously providing his time to run races and mentor others.

The ever-popular monthly cruising group dinners hosted by Peter Clark and Le Yen Boc unfortunately came to an end in December after many years of sumptuous meals, amusing entertainment, and engaging guest speakers. The final evening closed with a well-earned acknowledgment of the many memorable nights that we have enjoyed thanks to Peter and Le Yen and their team of regular volunteers.

The Willi Wanderers continue to share their sailing plans and ideas, including the now annual Docklands overnight stay. The Sailing Committee welcomes Cruisers to continue to join celebrations at the destinations of the passage races.

The Dragon Force fleet remains very active with closely contested competition in both summer and winter series.

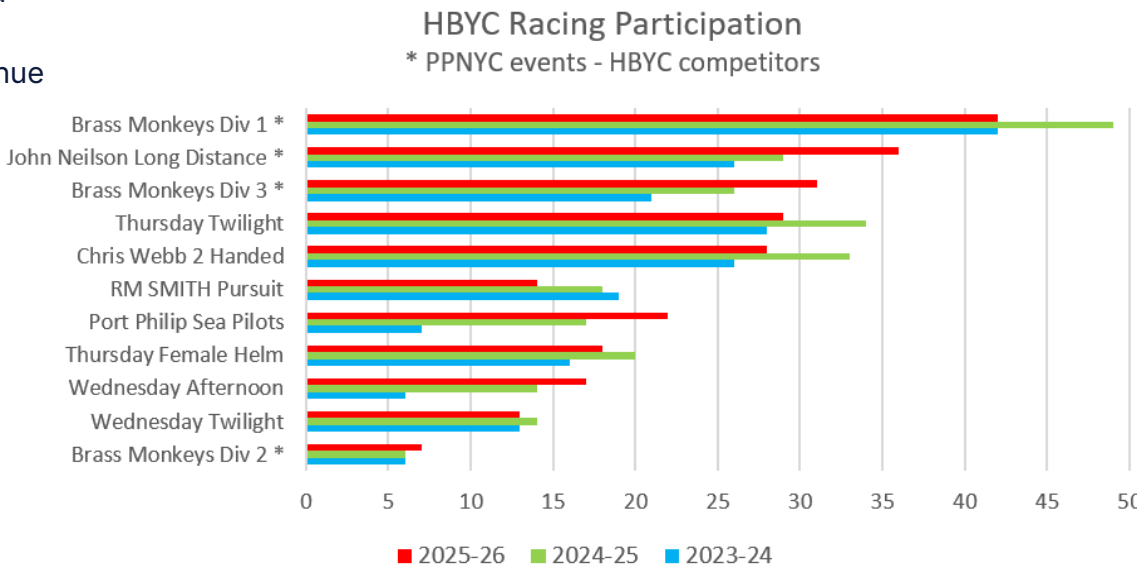

RACING PARTICIPATION

Racing participation at HBYC has continued to be strong with numbers similar to last season. Interest remains strong in our popular winter event, the Brass Monkeys, and is increasing in both the long-distance series, including the signature Sea Pilots race, and the Wednesday afternoon series.

We have had a challenging summer season on the water with just under 30% of scheduled races abandoned due to inclement weather. The Sailing Committee continues to look at the best way to schedule races and

structure the Club
Aggregate to continue
to increase
participation and
ensure that race
series have
enough races for
meaningful results.

RACING RESULTS

Congratulations to our Club Champions, the crew of *Encore*, who secured the clean sweep across PHS, AMS, and ORC.

Congratulations also to the crew of *Ikon* for their successful year in winning the Victorian Championship Range Series, Division 1 at Festival of Sails, and Rating Division 2 at Hamilton Island Race Week.

Congratulations also to all other race participants and winners who have contributed to the enjoyment of racing at HBYC, both in the bay and representing the club further afield.

IKON – Hamilton Island Race. Copyright Salty Dingo 2026

VOLUNTEERS AND RECOGNITION

There are a large number of volunteers who continue to generously donate their time and energy to making the sailing calendar a success. Race officers, RO assistants, drivers, pin boat crew, land officers, scoring and results, photography, catering and meals, our heartfelt thanks to you all.

At our presentation night the Sailing Committee recognised the following individuals for their outstanding contributions to sailing during the 2025-26 season:

Male Sailor

Greg Hynes – for his successful season, including multiple pursuit race wins, and being the PPNYC inaugural winner of Brass Monkey Division 3.

Female Sailor

Leo Eeckman – for her achievements over many years, particularly in the Club Aggregate. Winner of this year's Women's Helm series.

Youth Sailor

Kassia Jack – for being a keen sailor on a competitive boat. She and the Husky crew will race in any conditions and push themselves to become better sailors.

Race Volunteer

Noel Robbins – for his work in selection, upgrade, stewardship, and driver training for Angus Fletcher, a regular RO and driver.

LOOKING AHEAD

Another summer is just around the corner, complete with an action-packed calendar. We will continue to build on the success of the last season and look forward to a fulfilling sailing season and to welcoming and mentoring those who join us.

Ventis Secundis (with favourable winds)

Simon Hobbs
VICE COMMODORE

REAR COMMODORE'S REPORT

STRATEGIC ALIGNMENT AND COMMITTEE GOVERNANCE

During 2025–2026, the Training Committee strengthened its role as a unified forum for youth training, adult training and member development. Its work has been deliberately aligned with HBYC Vision 2030, with priority given to formal pathways, stronger governance, safer delivery and the long-term development of the club's next generation of sailors.

YOUTH DEVELOPMENT: INVESTING IN HBYC'S FUTURE

Youth development was the Committee's central priority. In response to low youth participation and under-capacity courses, the Committee focused on creating a clearer, more engaging pathway that combines structured training, regular racing, social connection and progression into club participation. This work is supported by the comprehensive "Youth Sailing at HBYC" Report (by Ruth Morton), finalised in July 2026.

The pathway provides on- and off-water opportunities from first participation through to confident racing and leadership. Youth sailors can progress from learn-to-sail activities into Friday Dinghy Racing, the HBYC Youth Team, club workshops, technical qualifications, mentoring and inter-club competition. The Committee is also gathering youth feedback and improving communication so that programs better reflect participants' needs and aspirations.

Collaboration and Competitive Opportunity

Collaboration with kindred clubs has expanded the scale and quality of youth activity. The summer Friday dinghy program, delivered with neighbouring clubs, gives young sailors regular "fun" racing and social connection. The event also allows novice sailors to get back to the basics of sailing. This season's success stories included participation in the Blairgowrie Youth Sportsboat Regatta and the RS21 match-racing event in Geelong, as well as a full youth team sailing on *Husky*. These experiences exposed HBYC sailors to higher-level competition, strengthened teamwork and demonstrated the value of a visible performance goal within the youth pathway.

Yngling Opportunity and Youth Racing Policy

Access to the Yngling *Shining Star* thanks to the generosity of Ruth and Alex Morton will help more youth crews race together. The class provides a strategic bridge between dinghy and keelboat racing for sailors who are ready to progress but are not yet established in the senior fleet.

The Youth Racing Policy will continue to evolve to permit broader racing opportunities within a safe and controlled framework. Competency-based skipper assessment, appropriate supervision and clear access arrangements will remain central to managing risk while enabling progression.

DISCOVER SAILING AND MEMBER RETENTION

The Committee developed a clearer Discover Sailing pathway that combines formal courses with practical club experiences. The pathway is intended to move participants from initial discovery and skills development into confident, active membership through both on- and off-water opportunities.

Practice Sailing fills an important gap between Academy courses and the Mentoring Program. It offers recent trainees a low-pressure environment in which to consolidate skills with instructor support before joining club boats. The Mentoring Program, supported by a pool of 19 mentors, then rotates participants across different boats to broaden experience, build relationships and accelerate integration into club life.

WORKSHOPS AND OFF-WATER DEVELOPMENT

The expansion of off-water learning began with a well-supported Rules of Sailing night in late June. Further workshops will build knowledge in racing, safety, seamanship and race management, helping members remain engaged throughout the year and supporting safer, more confident participation on the water. Members are encouraged to submit ideas for future topics so the program remains relevant.

YOUTH ACHIEVEMENTS: 2025–2026

National events

- 125 Nationals in January
- Mirror Nationals in January
- Pacer Nationals in January

Other regattas/events

- Sail Sandy in October
- Sail Country in November at Albury Wodonga
- Schnapper Point Regatta at Mornington in February
- Youth Sail VIC at Sorrento in April
- Youth Sportsboat Regatta in April (Blairgowrie)
- Winter Sail coached youth regatta at Albert Park in June
- RS21 2K match-racing in May (Geelong)
- Sail Mordi (August)
- Victorian School Team Sailing Championships
- Youth Team doing pursuit racing throughout the summer and winter season
- Youth teams competing in Friday Dinghy Racing.

States

- 2nd Youth in Sabre States in February
- 125 States in November
- ILCA State Championship

Offshore Events

- Sydney-Hobart, King Island

OUTLOOK FOR 2026–2027

The Training Committee looks forward to the 2026–2027 season with a renewed focus on expanding the youth participant pool, strengthening communication and collaboration with kindred clubs, and converting training participation into sustained club involvement.

CLUB CAPTAIN'S REPORT

This is my final Report as I am retiring and making way for new blood.

Since Leon took over as Yard Manager and has had a couple of part-time assistants, much of what might have been traditionally done by the House Committee and other volunteers has been taken on by the Yard Staff. The House Committee still meets regularly and decides on projects but the Yard deals more with the day-to-day tasks. In that regard I will limit my report to the bigger picture items that we have, with the yard's assistance, managed to achieve since the March General Meeting.

The carpark lines on the North side in my time here had always been too close together, based on the positioning of the flagpoles and not wanting to risk cars hitting them. Nowadays most members' cars are too valuable to damage so they take better care and the decision was made to change the spacing. This initiative was taken by one of the HC members and it has been widely acclaimed.

The concrete in the Yard is becoming problematic. With the purchase of the new Start Boat and the repair of the North Arm, money has been tight and along with a new realisation that any works need to consider rising sea levels — just ask Leon for the video of waves coursing through the yard a while back if you don't believe me — a different, more holistic approach must be adopted. A job for the new Club Captain!

Another victim of the money drought was the replacement of the two water coolers in the yard and workshop. I can now report that the purse strings have been relaxed and they will be installed soon. Keen observers of the boats in the yard will have noticed a marked increase in the number of, particularly RMYS boats in for maintenance. With competitive pricing, boats from other clubs have been encouraged to come here which has helped greatly with our bottom line. Owners of these boats along with a shipwright previously based at RMYS, report very favourably about the service provided by our Yard. I have been assured that no HBYC boats have been kept waiting because of the inclusion of these visitors.

When the big renovation was initiated in 2016, there were to be 4 stages of completion.

One to three have been done and an item from Stage Four has been embarked on. The Front Office is getting a facelift and one of our members who has a great deal of professional experience in these matters has been engaged to produce plans for this. The result is very pleasing and once budgets are finalised, we may see works begin.

We are a club of two Marina arms. Ferguson St Pier dwellers would probably not be aware of the problems that were becoming evident on the North Arm, and they could sleep well at night knowing that their Parks Victoria maintained structure is relatively solid and reliable.

We northern dwellers did not have quite that sense of security, as although much piecemeal maintenance work had been done in the past, a major overhaul was necessary. As a consequence, at the last AGM a large amount of forward budget was approved so that an economy of scale could be achieved to do the bulk of the work necessary to keep the arm sturdy.

On the right is a picture taken of one section before works commenced. Now a picture tells a thousand lies and here it doesn't look that bad. Let me assure you that members who may have been 'too many sheets to the wind' (allegedly), could well have been misdirected into the water down this dip.

The current round of works has been completed so our boats and people walking on the North Arm will be safe.

The project cost a little more than quoted but do note that it was quoted on the basis of what could be identified at the outset and dismantling revealed some extra hidden gems that had to be rectified.

Below is a table of estimates and actuals. Not too bad considering what was actually found. Some more graphic pictures will be shown at the AGM.

ELSTONE DIVING SERVICES				
	Quote \$	Invoice #	Invoice \$	Variation
Supply Timber	\$41,372.76	INV00009822	\$41,372.76	\$0.00
Pile Works	\$82,331.15	INV00009860	\$82,991.15	\$660.00 Drive 1 Extra Pile
Beam Repair	\$108,875.80	INV00009873	\$112,175.80	\$3,300.00 Replace 5 Extra Beams
	\$232,579.71		\$236,539.71	\$3,960.00

So that's all from me and as I said in my last weekly article when I finished up as Commodore all those years ago where I quoted "The Hitchhiker's Guide to the Galaxy" –

So long and thanks for all
the Fish.

Colin

THE MANAGER'S REPORT

A YEAR OF CHANGE

2025-26 was a challenging year for the club with the office going through a period of major change. We farewelled Erica and Zoe, while Scottie resigned in June. Our operations have been further impacted by the ongoing issues with our membership and accounting systems. Our new office team have worked towards establishing systems and policies at the same time as learning their roles.

The Yard team have worked hard this year. We have improved our processes and systems, and our yard and slipway services are now regularly sought after from outside the club, making it a busy hub of activity and work.

Even with the ongoing challenges, and a change of management, all of our staff team have shown dedication and commitment to the smooth running of the Club, and supporting each other in their roles. All of our staff are employed part-time hours and go above and beyond to get the job done.

THANK YOU

My thanks to our amazing team - Amanda, Lisa, Tania, Michael, Stephen, Rob, Tim and all our fantastic bar staff. We have been able to keep going and I'm looking forward to a great year ahead for 2026-27.

Thank you also to:

- The General Committee for their leadership and assistance over the past 12 months
- Our sponsors for their ongoing support of the Club
- All our members and community groups for being a vital part of life at Hobbos.

Regards,
Leon Berry
CLUB & YARD MANAGER

OH&S SUB-COMMITTEE REPORT

PURPOSE

To oversee the OH&S of the operations of the Hobsons Bay Yacht Club and ensure that the members, staff, contractors, members' families and guests are provided with a working and recreational environment, that is a safe (considering physical and psychosocial hazards), environmentally friendly facility, that complies with the requirements of Victorian law (OHS Act (2004)). This includes on- and off-water activities, yard activities by members, staff and third parties, access and use of facilities in the clubhouse, social events, and training, as far as reasonably practicable.

MEMBERS

Chair	Laurent Ailleres	Race Administrator	Stephen Cheney
Club Captain	Colin Orchard	Yard Manager	Leon Berry (Interim)
Club Manager	Leon Berry	Sailing Instructor	Michael Bradley
Functions Manager	Tania Mosheev	Advisor/OHS professional	Garry Undy

WHY THIS IS IMPORTANT

Victorian OHS governance and officer responsibilities (WorkSafe website, OHS Act (2004))

Under the Occupational Health and Safety Act 2004 (Vic), HBYC must proactively manage health and safety risks so far as is reasonably practicable. This requires more than having policies and procedures in place; effective safety management requires hazards and risks to be understood, appropriate resources and controls to be provided, safety information to be acted upon, and controls to be monitored to ensure they remain effective.

HBYC officers and senior decision-makers should maintain sufficient knowledge of the Club's operations and significant safety risks to make informed decisions, ensure appropriate resources are available, respond to safety information and obtain assurance that the Club's safety systems are being implemented effectively.

Under s 144 of the OHS Act, an officer may be personally liable if a body corporate contravenes the Act or Regulations because the officer failed to take reasonable care. WorkSafe advises that volunteer officers are exempt from prosecution under these officer-liability provisions.

ACHIEVEMENTS

1. We are developing a Safety Management System as per Fig.1. (over page). The Safety Management System comprises:

- Safety and Health policies (complete/endorsed)
- 17 Standards addressing all aspects of club activities (complete/endorsed)
- Risk registers for training and racing (complete/reviewed)
- Sailing Racing and Sailing Training Safety Manuals (complete/ in review to be endorsed)
- Operational Sailing-Racing and Sailing-Training safety procedures (complete / in review to be endorsed)

- Risk registers for the marina, yard and the clubhouse (in review)
- Marina/Yard and House Safety Management Manuals and Operational Manuals (being developed, to be reviewed by late Sep 2026 for endorsement)
- Note: all documents will be reviewed at least annually or when incidents are reported

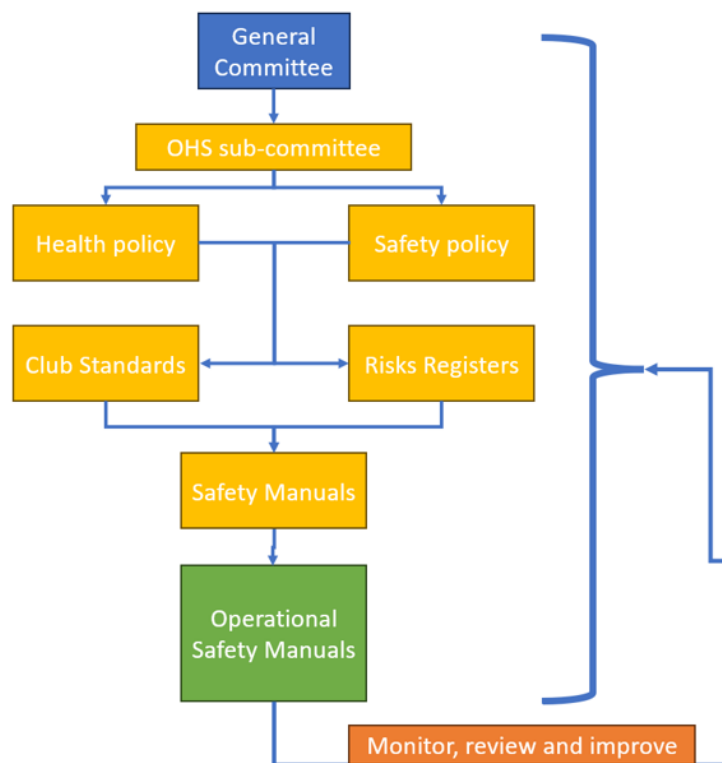

2. We have held monthly meetings including review of incident/hazard/processes and developing the safety management system

3. We have implemented an incident/hazard electronic reporting form and encourage members, staff and third parties to use it and report hazards and incidents immediately.

4. Generated electronic and recorded pre-start for club boats, plant & equipment

5. We provided support to the **Climate Change Risk Register** development, generously funded by Club Member **Rod Fuller**, with consultants from Senversa. The Climate Change Risk Register assesses risks in the short and long term to help the club plan and mitigate Climate Change effects. Integration of this risk register in the club risk register is in progress and will be part of the club OHS activities in the future.

Fig.1: HBYC Safety Management System

FUTURE PLANNING

1. Continue monthly meetings and review reported incidents and hazards

2. Integrate the Climate Change Risk Register in the Club's register and use the information to develop strategic investment for Climate Change Risk Mitigation in both the short and long term.

3. Finalise and then provide a continuous review of HBYC OHS systems documents and procedures

4. Continue improving/maintaining safety at the Club

Laurent Ailleres
OH&S Sub-Committee Chair

SOCIAL SUB-COMMITTEE REPORT

A YEAR OF CONNECTION AND COMMUNITY

The 2025–26 season was another active and enjoyable year for the Hobsons Bay Yacht Club community. The Social Committee continued to create opportunities for members, families and guests to come together, strengthen friendships and enjoy the welcoming spirit that makes HBYC such a special place.

Our social program complemented the Club's sailing activities and helped bring our motto, 'Sailing with the Community', to life. From relaxed weekly gatherings to larger celebrations and fundraising events, the support and participation of members remained at the heart of every occasion.

HIGHLIGHTS OF THE YEAR

The calendar featured a varied program designed to appeal to a broad cross-section of our membership. Highlights included Melbourne Cup Day, the AFL Grand Final, Wine and Cheese events, Bring Your Vinyl, Music Sundays and the New Year's Eve party.

Friday gatherings also continued to provide an informal and popular opportunity for members to catch up at the end of the week, supported by the Lucky Draw and the Treat Tray raffle.

The Greek Taverna Night was a particular success, combining a lively club evening with a strong community purpose. The event raised funds for both the HBYC Foundation and Williamstown Hospital, with \$750 donated to each organisation. It was a fine example of our members enjoying themselves while supporting causes closely connected to the Club and the local community.

Thank you to Cally Kwas for arranging this event.

SOCIAL SUB-COMMITTEE

David Gaylor - Interim Chair
Tania Mosheev - Functions Mgr.
Emma Arnold / Laurent Ailleres
- GC Representatives (alternating)

Brett Harrison
Kim Short
Barbara Phoenix

ACKNOWLEDGEMENTS

The Social Committee sincerely thanks every member who attended an event, purchased a raffle ticket, invited a guest or volunteered their time. That participation is what creates atmosphere, builds connection and makes each event worthwhile.

Our thanks are also extended to the members of the Social Committee for their enthusiasm, ideas and commitment throughout the season. We acknowledge Brett Harrison who deserves special recognition for the energy, creativity and good humour he brought to many Club events, including Melbourne Cup Day and Bring Your Vinyl. His willingness to organise, host and entertain contributed greatly to their success. It was fitting that Brett's outstanding service was recognised with the Freeman Endeavour Community Award.

We also thank Tania Mosheev, our Club Functions Manager, for her professionalism and practical support. Tania's work coordinating bookings, catering, staffing and event arrangements was essential to the successful delivery of the social program and helped ensure that Club and private functions were managed effectively.

Special thanks are extended to all volunteers who assisted with planning, decorating, ticketing, set-up, service, entertainment and clean-up. We also acknowledge the Club staff, General Committee,

fellow committees, sponsors and community partners for their support and cooperation throughout the year.

LOOKING AHEAD

In the coming season, the Social Committee will continue to offer an inclusive mix of familiar favourites and new ideas. Our focus will remain on events that are welcoming, well supported and financially responsible, while encouraging greater participation across all areas of the membership.

We look forward to another year of friendship, celebration and community at HBYC, and we encourage members to share their ideas, become involved and help us make the next social program another success.

David Gaylor
Interim Chair

MEMBERSHIP DEVELOPMENT SUB-COMMITTEE REPORT

PURPOSE

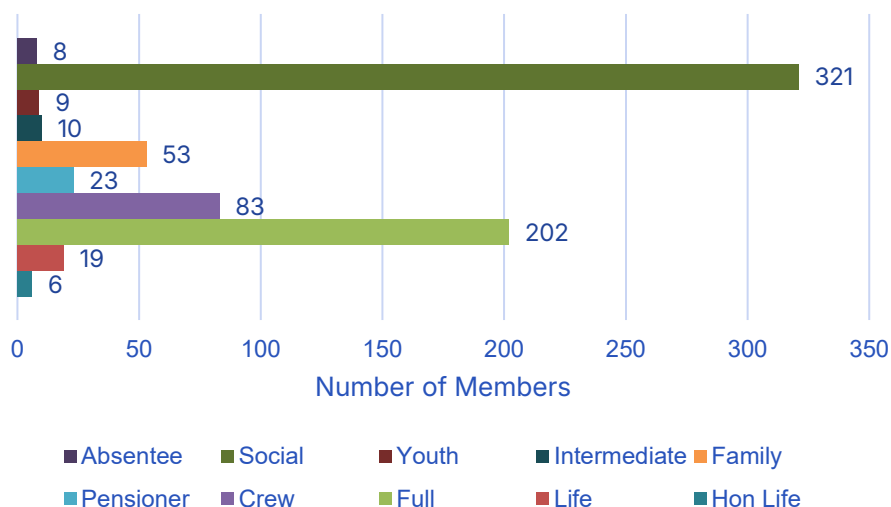

The purpose of the MDC is to increase participation and membership based on the strategic values of the Club by providing a participatory forum, representative of a cross-section of members, to define, instigate, oversee and support activities that enhance membership.

Terms of Reference: To consider, form opinions and make recommendations to the General Committee as required on:

- Providing opportunities for the community to participate in on-shore and on-water Club activities.
- Supporting and encouraging inclusion and diversity.
- Offering great value to, and meeting the needs of, all members and casual users.
- Giving input on the strategic direction and goals for the club.
- Providing input on relevant policies and procedures.

OUTLOOK 2026 – 2027

The MDC is excited to be working with Leon, our new Club Manager. We are always working on initiatives to enhance and increase membership, and we look forward to getting Leon's input.

The MDC continues to work with the General Committee and other sub-committees to look for opportunities to increase membership. A focus on Marketing and Sponsorship will be a key activity.

The committee will continue to support and play its role in the regular activities including Opening Day, Discover Sailing Days, Community Days, and is also working on the following:

- Develop a marketing campaign to showcase the wide range of available and accessible Club activities
- Increase the focus on sponsorships and grants
- Explore training opportunities for all committee members and staff
- Continue to explore opportunities to join various inclusion campaigns. For example, International Women's Day, Pride Week and NAIDOC Week.

In addition, HBYC will continue to monitor other sailing clubs to identify new opportunities and ways to get involved with new and diverse groups.

I would like to thank the MDC members for the work they have done over the last 12 months and their commitment to making the club attractive and engaging to new members and our current members.

The MDC is always looking for fresh and creative ideas so please contact me or the office with your thoughts, or talk to us about joining our team.

Regards,
Cameron Smith

Privileged to be on the lands of the Yalukit-willam people

HONORARY TREASURER'S REPORT

FY2026

I am pleased to present the Treasurer's Report and audited annual financial statements for the financial year ended 30 June 2026.

The overall net result after depreciation is a surplus of \$48,932 (41% decrease from \$82,916 reported in FY25). HBYC's total equity is \$2,875,147. Cash held at the end of the financial year is \$644,264, of which \$168,474 is currently in a term deposit. The cash net increase was \$157k compared to \$116k in FY25.

The financial year 2026 saw the club affected by a combination of challenging staff transitions and major world developments impacting disposable income. This combination was mainly felt as a reduction across our hospitality income streams, such as private functions and activity at the bar. We continued our commitment to maintaining our assets and providing exceptional sailing and club facilities, for example through the purchase of Angus Fletcher. For the future outlook, our strong cash balance allows us to focus on priority CAPEX items while further funding pathways will be required to support existing and upcoming CAPEX needs and to allow for investments in increasing the club's resilience and ability to mitigate the effects of the worsening climate crisis on our ability to operate. The lease signed by HBYC, while increasing annual expenses, will give us reassurance for investments into our assets, and the ability to take out financing if needed.

Key variations during the financial year on the income side were lower bar sales (down 12% or \$52k) which were only partially offset by reduced cost of sales (down 9% or \$21k) following price increases, resulting in a \$32.6k decline of Gross profits (2%). Other contributors were decreases in Other Income (27%), hall rental (decrease by 23%, after last year's increase of 28%), and a 4% decrease in membership income (\$15k). Sailing-related income (e.g. marina, hardstand, rental fees) remained consistent, and increased in line with last year's fee increases. Yard sales increased by 15% across slipping and trading. Sponsorship remained stable as the variance is due to income in advance.

Employment expenses increased by 7% (\$43k), partly related to staff turnover, and for rubbish removal (6%). Other Expenses reduced by 38%, mainly due to using existing merchandise stock (\$11k down). Expenses for Repairs and Maintenance decreased by 30% due to timing, as main marina maintenance works were deferred to July.

The marina maintenance budget of \$320k was approved at the GMM in March 2025, with initial works and piles purchased in FY25 (\$76k) securing low rates.

Major North Arm works were pulled forward to ensure safe upkeep of our essential asset. The cost of recent works was \$236k. Of those, \$41k was spent in FY26 and are included in this financial report, the remaining \$195k falls into FY27.

Further larger R&M items during the year were:

Swing moorings (\$13.8k), a stern pile (10k) & pile caps (\$5.5k)

Cool room floor (\$3.8k) and steps to the BBQ area (\$2.5k in addition to materials purchased in FY25)

Major Capital Expense items last year:

Angus Fletcher (\$269,500 incl. GST, monthly repayment of \$5k)

Glass wall for the BBQ area (\$7.8k)

Angus Fletcher can be found on the Statement of Financial Position: Plant and Equipment: Club Boats. As a liability, we have \$44k in current, and \$191k in non-current borrowings. \$34k repayments have already been made, along with interest payments of \$16k.

The outlook for the new financial year is cautiously positive, supported by a solid funding base. While we continue facing increased operating costs due to the general economic situation, increasing fees by CPI was a necessary and balanced approach. The Strategic Asset Management Plan and the recent work on a Climate Change Risk Register will inform future financial planning and operational activities. Work continues on the priority task of transitioning our complex financial and member management software, which includes identifying an appropriate solution and preparing a complex data migration over the next years. The recent review of the Financial Authorities Policy supported ongoing good governance.

My special thanks go to the previous and the new team at the office, Amanda and Lisa, which formed through a period of management transitions and system challenges, now led by our new Club Manager Leon Berry. Thank you to the Finance Committee for contributions, skills and advice! The dedication and committed work of our staff and volunteers enables us to enjoy sailing at this beautiful Club. I express my appreciation to our auditors Stannards for their invaluable services this year. Thank you to our sponsors for continuing to support the club. Please in turn support them!

Marina Monz
Honorary Treasurer

HBYC FOUNDATION REPORT

THE FOUNDATION COMMITTEE

Tony Johnston (Chair)
Rod Fuller (Secretary)
Craig Jackson
David Judge
Le Yen Boc
Colin Leake
Kevin Le Nepveu

Appreciation also to Julia Zhou on financial reporting.

PURPOSE

to provide financial assistance to members of the Hobsons Bay Yacht Club and to benefit the Club to assist in:

- promoting and encouraging participation in the sport of sailing and associated on-water activities including racing, cruising, and associated events;
- providing training services, equipment, and facilities for sailors or people who are interested in becoming sailors.

FINANCIALS	2026	2025
Sailing Assets and Equipment Fund	23,743	12,004
Facilities - Master Plan Fund	3,662	783
Youth Development Fund	21,869	21,869
Unrestricted Funds	1,585	10
TOTAL FUNDS	50,859	34,666

Income received from:

- Donations, including the members' opt-in/opt-out subscriptions
- Events (Greek Night)
- Interest

FIRST FUNDING REQUEST RECEIVED

Youth Sports Boat Regatta – initial funding request in progress

FUNDING THE FUTURE SAILING COMMUNITY

HBYC has a long history of sailing with the local community. Please consider adding to that legacy via

- Tax-deductible donation
- Support fundraising events, or
- Bequest to the HBYC Foundation

Tony Johnston – HBYC Foundation Chair

2025-26 SEASON RESULTS

CLUB AGGREGATE, PHS

1st - H1020, Encore, Bill Feore
2nd - H2, Warrior, Nuts Syndicate
3rd - H74, Rage, Tim Metherall

CLUB AGGREGATE, AMS

1st - H1020, Encore, Bill Feore
2nd - H2, Warrior, Nuts Syndicate
3rd - H74, Rage, Tim Metherall
