## Application for Yacht Registration

Full members of HBYC may apply to have their yacht listed on the HBYC Yacht Register. The yacht must generally be of a recognised design, in good condition and carry adequate safety equipment. A copy of the YA Special Regulations Equipment Audit Form (category 6) is attached for reference as to what “adequate safety equipment” is. Vessels not meeting these guidelines, will come under particular consideration by the Sailing Committee.

Please note that the application form will be valid for 3 months from time of submission. If the application is not completed within the time frame the application fee will be forfeited and the process will commence again.

### Application and Inspection Procedure

1. Prepare the vessel and equipment using the YA Special Regulations Equipment Audit Form (Category 6) as a guide. Using the current Racing Rules of Sailing will help with more detailed aspects. Links to the audit form and racing rules can be found on the [General Information](#) page on the website.
2. Complete application form, including attaching a copy of the current insurance policy and a photo of the vessel.
3. Obtain a sail number from the Office Administrator.
4. Arrange vessel inspection with the Yard Manager.  
Vessels must be brought into the jetty to be inspected and may need to be slipped. Any item which requires further attention will be indicated at the time of initial inspection. When this is rectified, a further inspection must take place. All items check at the initial inspection must be present at any subsequent inspection.
5. Sailing Committee Approval  
The application will be submitted to the Sailing Committee for approval after the inspection is completed.

Admission to the yacht register does not give approval nor imply that any yacht is entitled to access the club facilities, including marina, slipway, yard, hardstand or mast crane. Based on their design capacity, each of these facilities have limitations on their use. If any of the facilities are planned to be used outside their capacity stated in the Constitution, By-Laws or local signage, consultation with the Club Manager and Yard Manager must be undertaken beforehand. Any vessel close to the capacity of the facilities may be required to provide evidence confirming that the vessel is within the size or load limit. These limits include all fuel, water and gear and are not the design displacement stated on the design documentation.

### Office Use Only

Vessel Photograph  Insurance  Full Member  Deposit Paid
