## MORE COMING SOON!

If you have any allergies or dietary needs, just let us know before ordering — we're always happy to help.

Our pizzas, pastries and coffees are made in a kitchen that handles all major allergens, so we can't promise everything is completely allergen-free, but we'll do our best to guide you.

At Trancio, everything we serve is made on site with care.

From our slow-proved pizza dough to our freshly baked pastries and perfectly crafted coffee, we believe in simple, honest food made from quality ingredients.

Nothing is rushed, our dough rests for 24 hours to develop flavour and light texture, our sauces are made fresh every day and every bite is prepared by hand.
