ATTACHMENTS EZ-0002 BARREL HANDLER

KEY FEATURES

Attaches to skid steers or any other machine equipped with the Universal Quick Tach' mounting system.

Rotates 350 degrees when attached to the EZ Spot UR Chain Rotating Base.

Composed of Grade 50 higher material and core welded.

Can also be attached to an EZ Spot UR Double Cylinder Rotating Base or an EZ Spot UR Non-Rotating Base.

Jaws open up to 39.5 inches and close down to 21 inches.

Handles 55 gallon, 30 gallon barrels, plastic barrels and can be modified to fit 110 gallon barrels.

EQUIPMENT SPECIFICATION

Two clamp cylinders securely hold the barrel in place.

Anti-static lining reduces slippage and the risk of shock.

Guaranteed not to crush metal or plastic barrels.

Comes complete with flush faced coupler, spring hose mount and wiring harness.

Can be adapted to fit a mini-excavator, wheel loader, telehandler and backhoe. *

PRODUCT DESCRIPTION AND APPLICATIONS

The EZ Spot UR Barrel Handler is revolutionizing the waste management industry by streamlining the process of emptying and loading 55 gallon drums. When attached to the EZ Spot UR Chain Rotating Base the Barrel Handler will rotate 350 degrees making it easy to load and unload 55 gallon barrels. Inserts can be purchased that allow the Barrel Handler to handle 30 gallon barrels and the Barrel Handler can be modified to handle barrels up to 110 gallons.

The EZ Spot UR Barrel Handler is quicker, simpler and more cost effective than any other product on the market for emptying barrels. It will save you time, effort and money as it will dramatically reduce the amount of time it takes to get a job done. The EZ Spot Ur Barrel Handler will immediately increase your output while keeping your crew safe and out of harm's way.
