

INHIVE / INLAND CARRIERS

Turn Inland Capacity into Visible Demand

Connect your rates to InHive so freight forwarders can find, compare, and include your services in customer quotations

InHive

MADE BY HUMANS. GUIDED BY NATURE.

Inland Carrier API Partnership

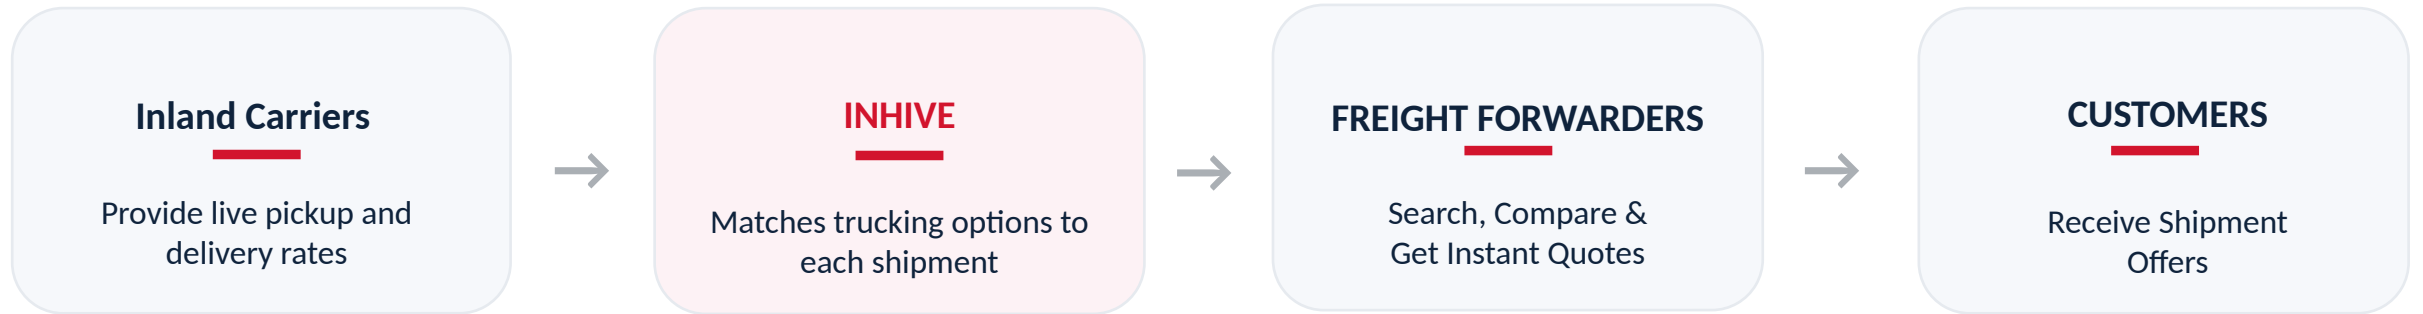

What is InHive?

InHive combines pickup/trucking, airline rates and schedules, and other charges to generate instant airfreight quotes for IATA-accredited freight forwarders.

Access to InHive is available exclusively to IATA-accredited freight forwarders, creating a trusted and qualified network for rate distribution.

IATA

Your rates become visible inside the same quotation workflow freight forwarders already use.

A sales channel-not another rate repository

EXPAND COVERAGE

- More lanes
- Service areas
- Equipment options
- Pickup & delivery

WIN MORE QUOTES

- Rates appear during live quotations
- Forwarders see eligible options
- Your service becomes quote-ready

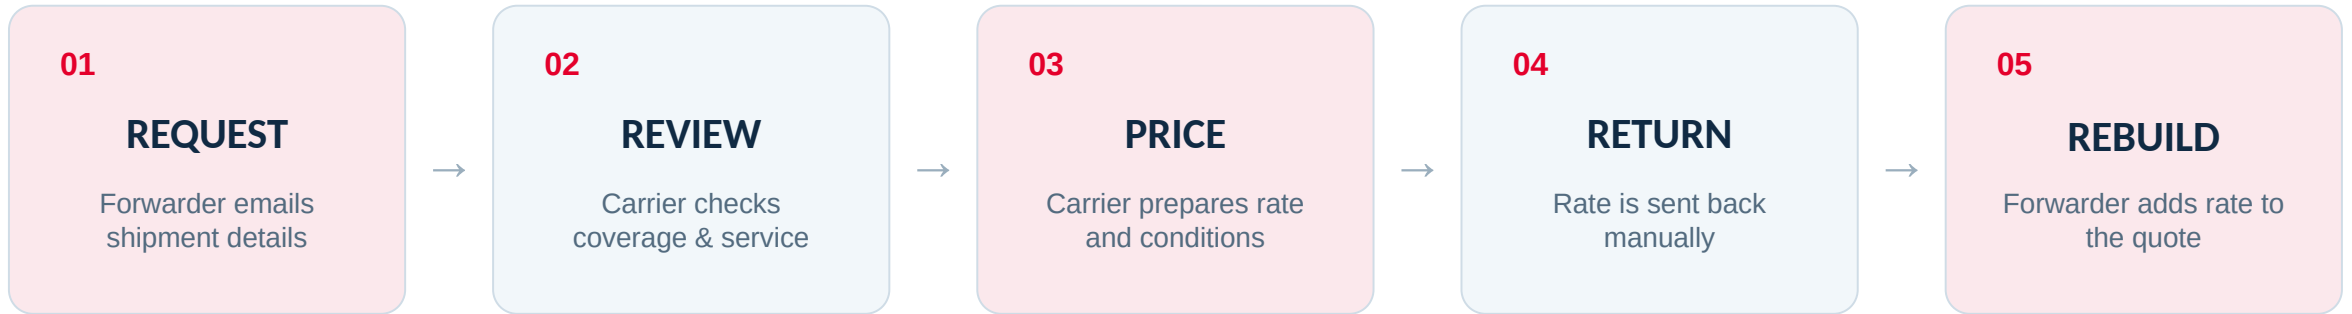

PROMOTE CAPACITY

- Publish time-sensitive pricing
- Surface lane availability
- Reduce manual inquiries

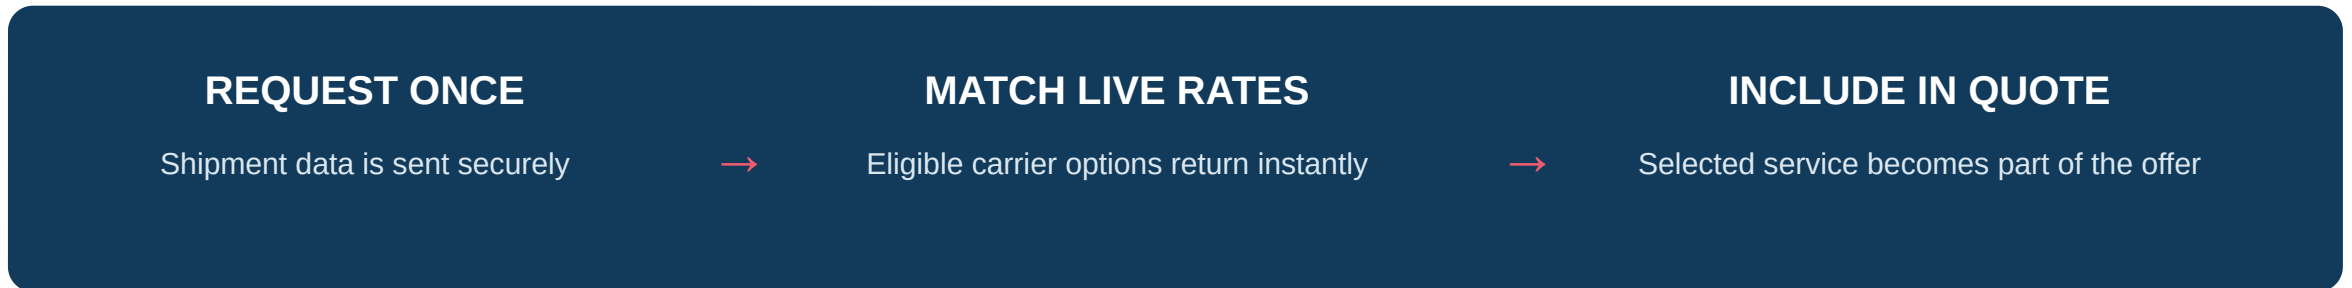

Your services are presented when there is an immediate shipment need-not stored for later reference.

REPEATABLE WORKFLOW

Quote history, filters, exports & inquirer records

A faster, easier quoting experience drives repeat usage - giving inland carriers more visibility and more opportunities to be selected.

Freight Forwarders can extend access to their overseas clients

Both Freight Forwarder Admins and Agents can provide keys to their overseas clients, helping the inland carriers expand digital access to its rates.

This supports InHive's target of reaching ~22,000 freight-forwarding companies - and, through them, millions of freight forwarding clients and shipper/consignee clients.

Our target: expand airline visibility across a global forwarding network

InHive's growth target is to reach approximately 22,000 freight-forwarding companies - and, through them, millions of freight-forwarder clients, shippers, and consignees.
