- B. In order to accomplish such a dual objective, provision is made in this Resolution for a more detailed consideration of each of certain specific activities as may relate to proposed conditions or locations, design, size, operation, concentration of population, etc. Land and structure uses possessing these particular unique characteristics are designated as conditionally permissible uses and are permitted through the issuance of a "Conditional Zoning Certificate" with such conditions and safeguards attached (as may be deemed necessary) for the protection of the public welfare.
- C. The Board of Zoning Appeals, as hereinafter created, may authorize the issuance of such Conditional Zoning Certificates for any of the following uses in those districts designated and the following procedures should be followed in submitting a request for such a certificate.
