Your support and donations are making a difference in women's lives. This is just one of the thank you notes we have received since starting Positively Pink charity in 2017. We hope to keep this energy going by caring for every woman who has to have a mastectomy

Hi Maria, Lisa, Denise & Eileen,

Words cannot express my gratitude for the incredible overflowing bag of goodies. At such a difficult time in my life, the smile you brought to my face was so appreciated. Each item was clearly given so much thought and each one will serve it's purpose. The kindness you give through the gesture of these gifts to make women who are struggling with breast cancer feel special is truly admirable. Thank you from the bottom of my heart for making me feel special.

With love and gratitude,
Marie
