Primarily focused on asset protection with Utilities, UPS systems, Generators, and Camera systems. We are also distributors that support fiber optic, electrical and IT industries.

WHO WE ARE

Blue Steel Technologies Inc. is a Service-Disabled Veteran Owned Small Business (SDVOSB) distributor of many asset and asset protection products. Our primary products come from Xtreme Power Conversion (Technician Certified), Digital Watchdog, Cummins Industrial Generators, Kendall Howard, Copperhead Industries, Endot Industries, and Fiber Optics from many sources.

- Blue Steel Technologies specializes in government contracts for asset protection in electrical, fiber optics, utilities, and uninterrupted power supply systems.
- Blue Steel Technologies can handle small and medium orders up to 10 pallets.
- Blue Steel Technologies can deliver worldwide.

CORE COMPETENCIES

Blue Steel Technologies Inc. focuses on Information Technology assets and asset protection with access to over 300 product lines.

- Member of Minnesota Utility Contractors Association
- Member of US Small Business Chamber of Commerce
- Safety and Training is our main priority
