Concerns expressed by researchers and members:	BIZPAC Members unanimously chose CAROLINE KANE as "Best to Serve and most qualified candidate" in polling following our research and forum. Our concern is "division politics" played by others in the primary attempting to divide voters on race, gender, religion which confuses the critically important issues at hand which is the restoring law & order and the US Constitution. We want to keep the Primary race based on good policy and best qualified candidate. Division politics hurts us all in the end.	Initially broke off ALL communication and refused to answer questions and did not attend Candidate Forum; Recently, sat down for informative open discussion and provided requested information; we are delighted to have her sharing information freely now	Tina attended our candidate Forum and answered our screening questions without hesitation. She was forthcoming with basic information. Concerns arose in multiple forums where her policy stand is moderate on social issues and has stated publicly that she would "make friends" with "the SQUAD" which is a democrat USA hating far left group	Kenneth Omoruyi has been evasive, refused to attend candidate forum to address voters concerns and argumentative refusing to answer the simplest of questions saying: "what is this, a deposition?" And stopping all communication. Nothing checks out with his story. Nation of Islam members on his campaign team. Kenneth reluctantly admitted he has NEVER voted in any USA Primary or General Election because he was not a citizen and could not do so.
