

Parental Involvement Policy

Purpose

The purpose of LearnStar's parental involvement policy is to ensure that parents/guardians play an active role in the care of their child. LearnStar understands that parents/guardians are a child's first and most important caregivers. They have a knowledge and understanding of their child that is so valuable and important. Involving parents/guardians helps to ensure that children receive the best possible care.

Parental Involvement Strategies and Procedures

LearnStar values the relationship between parents/guardians and caregivers and is committed to fostering these relationships in a positive and respectful manner. LearnStar continually looks for ways to involve families as much as possible and encourages families to get involved. LearnStar promotes ongoing communications and provides information on how parents/guardians can become involved. To do this, LearnStar will:

- Provide families with contact information for staff working at their child's location. This ensures that staff are able to communicate with families as needed.
- Provide information about daily schedules and activities
- Provide monthly newsletters that highlight important information about programs
- Use a social media page to communicate important information
