

Learnstar Philosophy

Learnstar is a company that is built on the principle of providing high quality childcare for the communities in which we serve. We understand the busy nature of families in today's society and the importance of childcare for all types of families. Our program is designed to allow families to feel confident in the care their children receive while they are away. Our owner, administrators, and staff are committed to building long lasting, trusting connections with the children and families we work with. We are committed to helping children in our care further develop socially, emotionally, creatively and cognitively.

Our staff is composed of highly qualified and trained caregivers who are approachable, flexible, and accountable. We are committed to providing consistent childcare each day. We provide children with a safe and caring learning environment that nurtures their sense of curiosity. Our staff provide a positive environment every day. We strive to help children to improve their self-esteem and self-worth

We understand that children learn best when they are presented with opportunities that are both engaging and developmentally appropriate for them. We allow children to learn in a structured environment that promotes learning through exploration and play through the use of hands-on materials and activities. We provide opportunities for learning both in the classroom and as well as in nature. We believe it is important to foster connections between children and the communities in which they live. We take the time to teach children about their communities both to increase their knowledge and understanding of the world around them as well as to increase safety awareness when in and around the community.

Learnstar understands and celebrates the individual strengths and needs of each child we care for. We believe in meeting children where they are and helping them reach their maximum success with the support of our highly trained staff. We use children's interests and strengths to build learning opportunities for them to engage in. We are committed to ensuring that every child can participate in our program in a way that is meaningful to them.

Learnstar believes in developing and fostering open, regular and transparent communication and collaboration with families that we are working with. A child's family are their first and most important teachers and caregivers. They play a vital role in every child's learning and development. Through our communication and collaboration, we support the role the family has to play and provide them with the opportunity to help us best support their child. We understand that every child and family have their own

unique background and culture that also impacts their learning and development. At Learnstar, we celebrate these histories in a variety of ways.

Learnstar is designed to do more than just provide childcare; we are committed to helping children achieve their dreams and goals and we are happy to join their families in this journey.
