CD50 and CD51 grant applications totaled \$729,000 for paving several streets. We were awarded \$75,000. The engineers feel that we might be able to pave 6th Street from Vermont to Michigan with this funding. They are working on the specifications, and we will get this out for bid.

The County is working on the contracts for the 9th Street Park grants. We have received additional funding, and we hope to have this work for walkways, playgrounds and possibly another pavilion out for bid in the next 2 months.

The engineers are continuing to work on the specifications for the Small Water and Sewer grant that we were awarded for \$418,540.00. This will address water runoff in several areas in the Borough, including Maryland Avenue, Peach Alley, Spruce Alley and the 500 block of Delaware Avenue.
