

## **\$80,000 Grant**

### **Department of Community and Economic Development**

In October of 2022, Glassport Borough was made aware of many IT upgrades that were needed for the Police Department. Chief DeVerse contacted State Senator Jim Brewster and explained what the department needed. It wasn't long before Senator Brewster secured \$80,000 in funds to assist the Police with what they needed. These funds made the following upgrades and purchases possible:

- License Plate Reader Cameras
  - These cameras have been placed strategically throughout the Borough to assist not only our department, but other surrounding departments as well.
- 10 laptops for our vehicles and squad room. This included mounts, keyboards and docking stations for the computers in the vehicles.

Now that the grant has been closed out, Glassport would like to express how appreciative and forever grateful we are for the continued support that Senator Jim Brewster provides to our Borough.
