Production
National Certificate in Music and
Sound Technology
National Diploma in Music and
Sound Technology

About Nonhlanhla

I am Nonhlanhla Fanele Buthelezi the sound engineer .I worked at Music House KZN from 2010 up to 2016. I was born in a small town called Denny Dalton (Ulundi). I developed the love for sound after matric, then I started as a trainee for sound engineering at GearHouseSA. After that programme I earned a role at KZN Music House, where I was trained by Richard Mitchell, which gave me a huge experience on how thing works in the industry.

I have worked with so many big names on the SA music scene, including Lebo M ”Lion King”, Mbongeni Ngema and many more. On the Television side, I was involved in the Metro FM Music Award in 2014 and 2015 where I was a production assistant, under James, the MD at the Metro FM Awards, and I got the chance to assist in all areas on the live broadcast production. I have also worked as a location sound recordist assistant for DMP productions for Mnet Mzansi Magic movies.

I was involved in the X- Factor production, recording all the sound tracks for the show, and the Top 3 singles which was broadcasted live on SABC1.

I trained all the interns under music house KZN, which some of them are doing well in the music industry. I have done a lot of albums that won multiple awards like Naima K, Mbuso Khoza, Zahara and the biggest Grammy Award won by LadySmith Black Mambazo, and many more. I proud myself by doing the best I can to gain trust amongst professional producers and artists in the music industry. I have worked with numerous Government officials including, MEC of Arts and Culture, Dr Mangosuthu Buthelezi and many more.

I have started a mentorship program under my NPC company “FANELLE FOUNDATION” where I train and bring at least 80% women in the industry. I believe, by many women coming together in the industry, the better the female artist will sustain their career in the entertainment industry. I also have Kiddies foundation, that aims to nurture kiddies naturel talent/ skills and prepare future professionals in the arts field.

I am getting a positive response from the community as a whole with these two projects I have implemented so far and I am now more determined than ever.

I am very dedicated in my work following all the praises I get from the clients.

To me this is not a “dream come true”, but it is “MY LIFE AND MY PASSION!”

Kiddies project

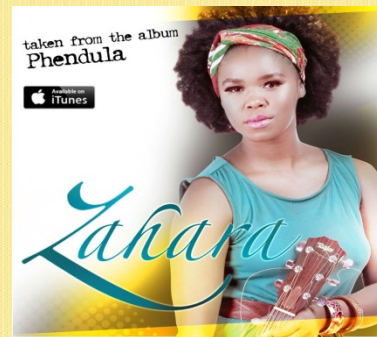

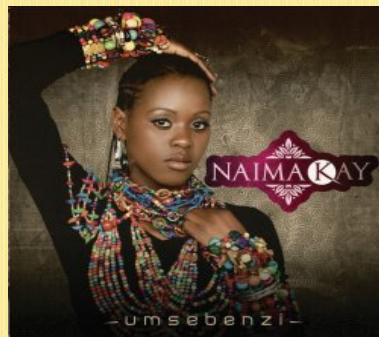

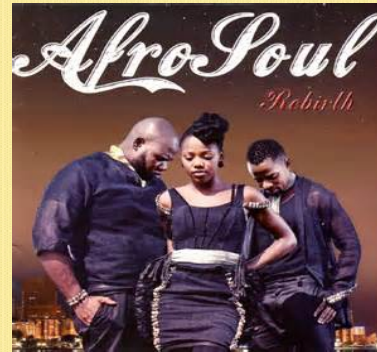

- Artistic expressions –the “vula circle type dance”. Children learn better when they are free to dance to speak and to express themselves.
- Free style dance building confidence in children when they have to stand in big stages(below picture).

GREATEST ACHIVEMENTS

- ▣ The recording of the ANC Audio Book, something that has not been done anywhere in SA.
- ▣ Recording more than 50 artist including Orchestra, in One of the biggest song, the “20 years of celebration” with the legendary Lebo M From Lion King. HE WROTE “Amazing young Engineer ever that he has worked with” as depicted on the picture.
- ▣ Working with the international Legend and the Grammy awards winner, Bishop Hezekiah Walker on his collaboration with Mthunzi Namba.
- ▣ working with Zahara on her second Album “Phendula”, that won the Metro Award.
- ▣ Recording the legendary “Ladysmith Black Mambazo” that won best album of the year in Grammy Awards 2018. That was absolutely amazing to be part of that journey.
- ▣ Working with the best producers, such as Zakes Banwtini, Robbie Malinga, Mbongeni Ngema, Mthunzi Namba, Khaya Mthethwa... etc
- ▣ My team and I Won an award for “Best breakfast show” at Mbokodo fm where I was working as a content producer.
- ▣ In the recording of X factor SA for the first time in the country, and at Metro Fm Awards I was highly praised by the directors for my professionalism.
