

The background of the top section is a blue-tinted photograph of a large industrial drilling rig. Several workers in safety gear are visible around the rig. The rig has 'foragefzte.com' written on its side. In the distance, a person is walking across a flat, open area.

Forage FTE Drilling is one of the most specialized companies in the drilling industry. We offer services covering different types of drilling, particularly in Canada and West Africa. FTE Drilling has a large fleet of highly specialized vehicles to carry out commercial, residential and industrial projects. We are recognized for our high-quality work in the following fields:

- Mining drilling
- Water drilling
- Geothermal drilling
- Pile drilling
- Directional drilling
- Sonic drilling

We are currently looking for a Driver to drive FTE employee between Sault-Sainte-Marie and Dubreuilville

Roles and Responsibilities:

- Off road haul from the Airport to the Mine
- Perform mandatory pre and post vehicle inspections
- Constantly monitor vehicle fitness, load security and ever-changing conditions
- Ability to take direction and communicate verbally
- Secure all loads, material, and equipment
- Keep interior and exterior of truck clean
- Perform other related duties as required

Qualifications :

- License required
- Clean drivers abstract
- Ability to work 12-hour shifts (7 – 7)

We invite you to send your resume and information to: rh@foragefte.com
