

ROCK TRUCK OPERATOR

POSITION SUMMARY:

Reporting to the Site Foreman, the Rock Truck Operator will operate articulated and rigid framed rock trucks designed for the transport of rocks, gravel and other materials. The Rock Truck Driver will ensure the safe and efficient transportation of materials. This is a rotational position with a schedule of 20 days on, 10 days off.

CORE RESPONSIBILITIES & DUTIES:

- Safely operate rock trucks on construction sites, adhering to all safety guidelines
- Transport rocks, gravel, and other materials from loading areas to designated locations
- Communicate effectively with site supervisors, equipment operators, and other team members.
- Conduct daily pre-trip safety inspection on equipment
- Perform general maintenance and cleaning of construction equipment as required
- Report all incidents and near misses to direct supervisor
- Ensure safety is a top priority at all times
- Other duties as assigned by supervisor

EDUCATION, EXPERIENCE & SKILLS:

- 2+ years experience operating heavy equipment is mandatory
- Must hold a valid driver's license
- Civil earthworks or mining experience required
- Ability to work day and night shift is mandatory
- Ability to work independently and as part of a team
- Ability to self-start and take initiative on tasks
- Strong communication skills both verbal and written
