# AURORA

## TOOLS

**Aurora Tools** is a Canadian company committed to providing high-quality, affordable tools to the industrial market. With a mission to equip Canadians with reliable products for any task, Aurora Tools offers an extensive selection of tools and accessories that cater to every project.

Since its founding over 15 years ago, the brand has grown from offering just bench vises to a wide range of products across 190 categories. Driven by continuous improvement and a focus on delivering outstanding value, Aurora Tools strives to be the trusted partner for any job or task, offering products from around the world that deliver exceptional performance without compromising affordability.

**Qbrick System** is a reputable Polish company known for their modular, stackable toolboxes made from durable plastic. With a strong focus on quality and functionality, Qbrick System constantly strives to improve and evolve its products to meet the needs of its customers. The company is dedicated to finding new ways to enhance its offerings by developing a range of accessories designed to complement their toolboxes. Driven by the passion of its team, Qbrick System continues to set the standard for practical, reliable, and highly adaptable storage solutions, ensuring that every product they create is built to last and designed with the end user in mind.

## WHY THIS COLLABORATION?

**Aurora Tools** and **Qbrick System** have come together to collaborate on bringing Qbrick's innovative, modular, and stackable toolboxes to the North American market, combining their strengths to provide customers with unmatched storage solutions. Aurora Tools, with its deep roots in the Canadian industrial market, is the ideal partner to introduce Qbrick System's durable, versatile toolboxes to a new audience. Meanwhile, Qbrick System's cutting-edge design and continuous pursuit of improvement align perfectly with Aurora Tools' commitment to quality and affordability. This collaboration ensures that North American customers will benefit from reliable, customizable storage solutions that not only exceed their expectations but also elevate the functionality and organization of their workspaces. By combining their expertise and passion for high-performing products, Aurora Tools and Qbrick System are setting a new standard in toolbox innovation for the region.

# ARX<sup>TM</sup> System

The **ARX System** was inspired by the Latin word *arx*, meaning "citadel" or "stronghold." In ancient times, an *arx* was the ultimate symbol of strength, protection, and organization—a fortified structure that stood as a beacon of security and stability in the face of adversity. Building on this legacy, the ARX System was designed to be the modern-day equivalent for tools and gear: a fortress of order, resilience, and reliability for professionals and hobbyists alike.

The idea for the ARX System emerged from the challenges faced by tradespeople, contractors, and makers who needed a toolbox that could adapt to any task, endure the toughest conditions, and maintain the highest level of organization. Aurora Tools & Qbrick envisioned a solution that mirrored the resilience and functionality of a citadel—something that would stand the test of time, protect its contents, and empower its users.

Just as a citadel symbolizes safety, strength, and control, the ARX System aims to empower its users with a sense of mastery over their workspace. Whether you're a builder crafting new heights, a technician solving complex challenges, or an artisan shaping ideas into reality, the ARX System is your stronghold for success.

***"Because when your tools are protected, organized, and ready for action, there's no limit to what you can build."***

## GENERAL FEATURES

Made from recycled plastics.

Made from technical polyamide, the connectors and latches of the ARX System are highly durable and corrosion resistant.

The three-point connecting system allows for easy and stable stacking of several tool boxes and organizers.

The seal and hermetic construction ensures an excellent protection against water and dust, rated at IP66.

The toolboxes and larger organizers feature dedicated holes for M8 threaded inserts, allowing users to customize the system and attach accessories to suit their specific needs.

# BASES

Introducing our versatile tool box bases – the foundation of your stackable and modular storage solution. Designed with sturdy platforms on durable wheels, these bases provide effortless mobility for your tool storage system. With a payload capacity of up to 220 lbs, they ensure you can securely transport your tools and equipment, whether in the workshop or on the go. Built for strength and convenience, the ARX System bases make organizing and accessing your tools simpler than ever.

# TOOL BOXES

The ARX System tool boxes, available in small, medium, and large sizes, offer the ideal solution for keeping your tools neatly organized. Each box is designed with reinforced structures to handle high load capacities of up to 110 lbs while withstanding pressures of up to 265 lbs, allowing them to double as stable working platforms. The lids feature two spacious organizers with movable dividers and polycarbonate impact slides for added durability. Inside, the movable compartments keep your tools and accessories neatly arranged. With a flexible seal providing IP66-rated protection against dust and water, these tool boxes are built to perform in even the toughest environments.

## SMALL TOOLBOX

# DRAWERS

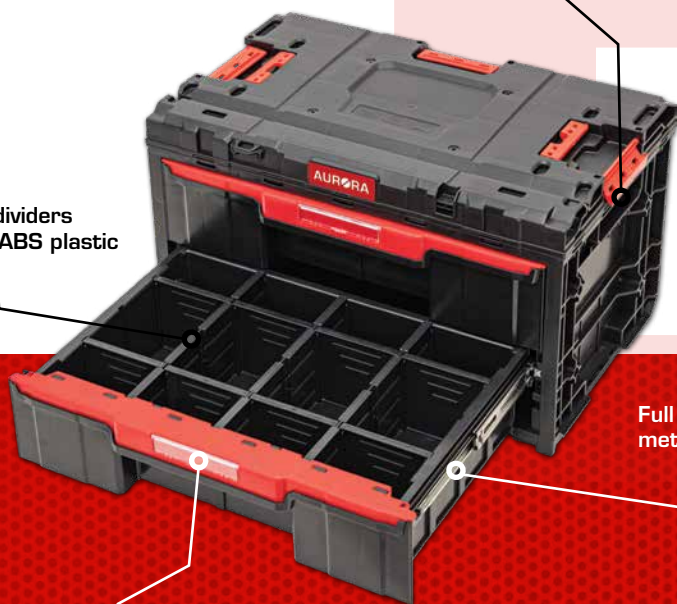

The ARX System toolbox drawers combine functionality and security, making them ideal for keeping tools and accessories neatly organized. Choose between a 2-drawer model with a 26 lbs capacity per drawer or a 3-drawer model with an 17 lbs capacity per drawer to suit your needs. Each drawer is equipped with adjustable ABS partitions allowing up to 12 customizable chambers to perfectly accommodate your tools. For added security, a robust steel bolt secures the drawers, providing compatibility with a padlock to protect your contents.

Convenient side handles for easy handling of the module

Adjustable dividers made from ABS plastic

Full extension metal slides

Transparent window for custom labelling

# TOPS

Enhance the functionality of your ARX System with our innovative accessory addons. Transform your toolbox into a versatile workstation with the wooden platform, featuring a high-quality, varnished plywood top that provides a durable surface for manual tasks or secure mounting of tools like saws, grinders, or vises. For added convenience, the foam seat accessory offers a comfortable and ergonomic seating option, perfect for jobs that require extended periods of focus and precision. These addons are designed to complement your toolbox setup, adding adaptability and ease to your workspace.

# CHESTS & CRATE

## Rolling Tool Chests

Our rolling tool chests offer advanced versatility to meet diverse workshop needs. One model features a lid equipped with eight storage buckets of varying sizes, perfect for organizing both small tools and elongated accessories. The second model is designed for carrying long power tools like angle grinders or cement mixers, complete with essential accessories. With innovative aluminum mounting rails, this chest doubles as a worktable, accommodating carpentry clamps for precise cutting, gluing, or holding, ensuring seamless integration into any project.

## Toolbox Crate

The toolbox crate provides unmatched flexibility with its large capacity and open design, making it ideal for transporting items with non-standard dimensions or those requiring easy, direct access.

Whether moving oversized tools or materials, the ARX System crate ensures convenience and functionality. For an easier portability, an optional handle accessory is available to simplify transport and enhance usability.

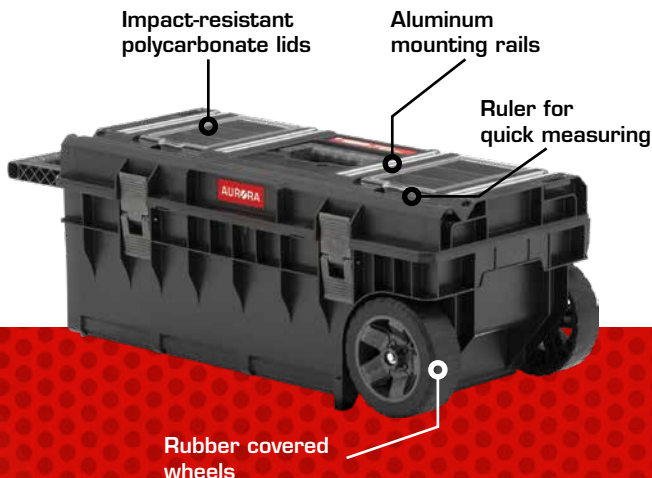

## LONG ROLLING TOOLS CHEST

	L	x	W	x	H	
	31.2	x	15.2	x	12.7	in.

# ACCESSORIES

Take your tool storage to the next level with our range of accessories designed to enhance customization and efficiency. From long item holders and cable winders to magnetic kits, these add-ons are perfect for tailoring your setup to specific needs. Our custom connectors provide even greater flexibility, allowing you to create extra space on the side walls of toolboxes for oversized tools or quick-access items. Additionally, these connectors can be mounted on workshop or vehicle walls, transforming unused surfaces into practical tool-hanging solutions. Adapt your ARX storage system to work smarter, not harder!

# Return and Warranty Policy

The warranty and return policy for the **ARX® System** tool storage line of products carrying the **Aurora Tools®** trademark is a one-year limited warranty with normal wear and tear expected. This warranty supersedes any and all manufacturer's warranties, written or implied. Our sole liability is limited to the repair or replacement of any product proven to be defective in material and/or workmanship and for which a warranty claim is made during the applicable warranty period. No claims for damages of any type will be allowed. All products are sold on this basis. Defective warranted products will be repaired or replaced at our sole discretion at no cost with a new or reconditioned product. This warranty only applies when the product is used for the purpose for which it was originally designed, under normal operating conditions. This warranty does not apply to products which have been abused, misused, modified or have been repaired by someone other than us. Discontinued warranted products will be replaced with products that are similar and available, or we will issue an appropriate credit. The specific warranty coverage for each product is as set out below. **The ARX System by Aurora Tools®** are only sold on a wholesale basis and accordingly, warranties only apply to purchasers for resale or for use in their business.

When presented to us within one (1) year from the invoice date of the original purchase, we will repair the defective product or will replace it, at our discretion.

This warranty does not cover products that are damaged through misuse, abuse, overloading, mishandling, accident, modification, neglect, or exposure to environmental factors.

## Return Policy

Please return the COMPLETE tool, freight prepaid, to the **Aurora Tools®** Distributor where you purchased the product.

If you have any questions, please contact your authorized **Aurora Tools®** Distributor (proof of purchase is required).

This warranty shall be governed by and interpreted in accordance with the laws of Quebec and the laws of Canada applicable therein.
