Dear Whitley County Water District Customer:

Whitley County Water District (WCWD) is working on identifying the water service line material for all of its water customers. We are asking our water customers to identify, if possible, their service line material for each meter and to contact WCWD to let us know their findings. You can e-mail your response to whitleycountywd@yahoo.com or call the office.

Please review the information provided by the Kentucky Division of Water:

“Check Your Pipes Kentucky – What You Should Know About Lead In Your Drinking Water”

This information can be found on the KDOW website listed below:

<https://storymaps.arcgis.com/stories/34b0782e4e284bbb874826b76798f7d2>

The website has instructions of how to identify the pipe material.

You can also go to WCWD’s website: www.whitleywaterdistrict.com (Notices Tab) which contains the KDOW link for your convenience.

If you would like a printed copy of the website material, please stop by our office.

WCWD appreciates your cooperation in this endeavor.

Please contact our office with any questions concerning this matter.
