

Local 2806 Campaign Slate Vows

We vow to preserve peace and end chaos.

We vow to attend huddles and shun showdowns.

We vow to be advocates and not an adversaries.

We vow to be interactive, productive and to take initiative.

We vow to demonstrate financial honesty.

We vow to function as translators between staff and management, not as instigators.

We vow to remind, not reprimand - We will remind staff, management, administration and union board members what is fair vs. unfair according to contracts and policies. **We vow** to adhere to and abide by those for better or worse. If something needs to change to be more realistic, then **we vow** to take initiative to create change.

We vow to rally, not to bully - **We vow** to rally around causes, goals, opportunities and possibilities. We do not intend to participate in bullying anyone for any reason. We love a good fight , but we don't fight for fun!

We vow to be thorough until we're through with anything that needs our attention - Everyone might not be satisfied in the end, but everything will be simplified as much as possible. **We vow** to make sure that everything makes sense to everyone.

We intend to invest time in preventing problems so that we don't have to waste time solving problems.

Consider this as our Rights & Responsibilities

Consider this our RSP

Consider this as our VCL

We looking forward to being “approved.”

-The new Slate
