LED Smart Space Linear Wall Lights

INSTALLATION

In order to prevent your light from falling off the wall, please pay attention to installation matters.

①

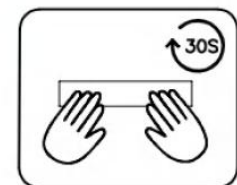

1. Please make sure that the wall or other installation surface is clean and free of dust or water.

②

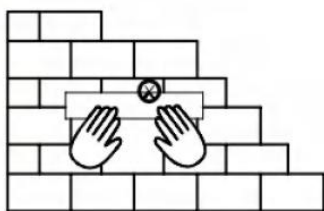

2. Use at least 1pcs of double-sided adhesive mounting tapes for each light.

③

3. When installing the light, be sure to press it hard for 30s after sticking to the wall to ensure stability.

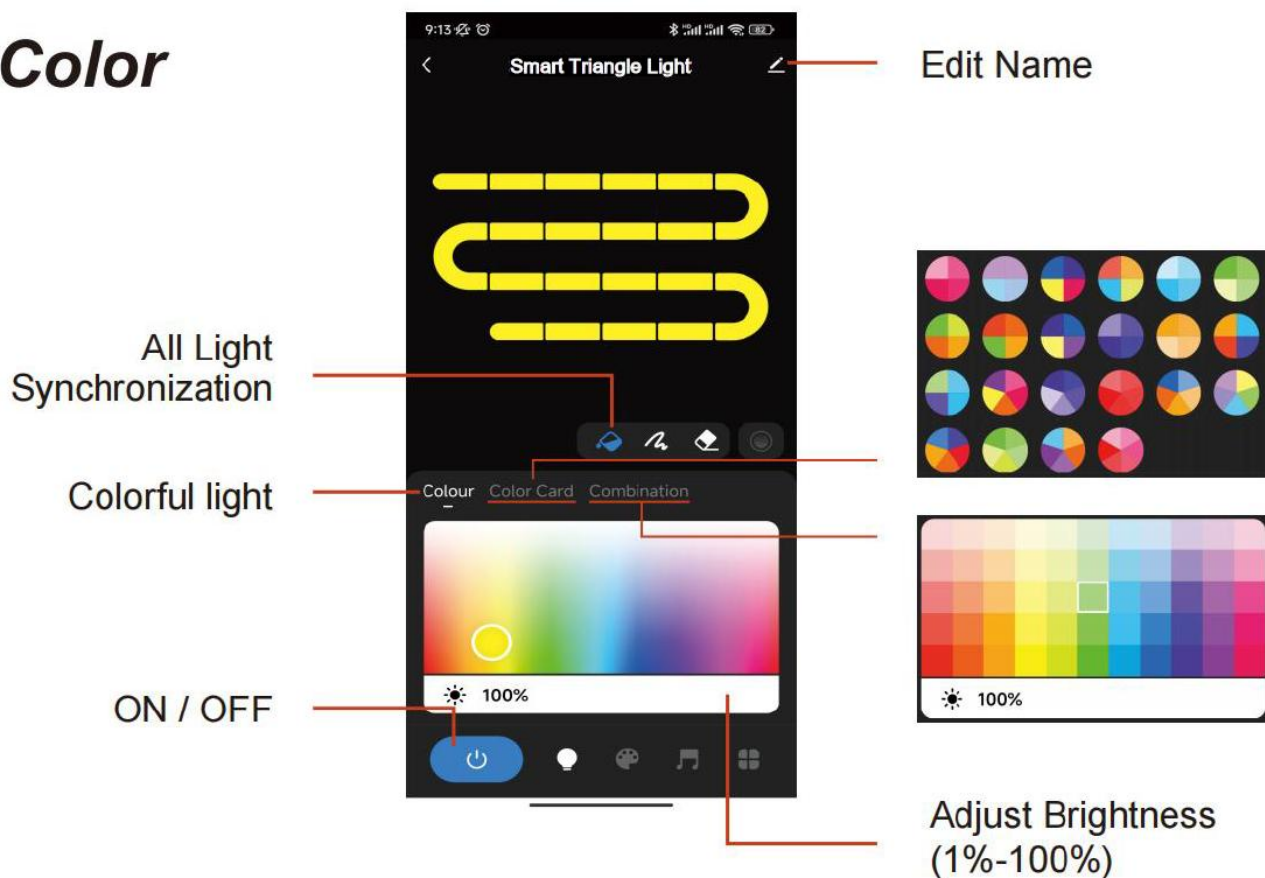

Note: The double-sided adhesive mounting tapes that comes with the product is not suitable for brick walls, wallpaper, wooden boards, ceilings, walls with ash falling and other uneven surfaces.
