

20W Type-H LED Track Light 5CCT (TRK-20W-CCT-BLK/WHT)

Delivering powerful performance and complete lighting flexibility, this 20W LED H-type track lighting heads are designed to meet the demands of both residential and commercial spaces. Featuring 5 selectable color temperatures—2700K, 3000K, 3500K, 4000K, and 5000K—it allows seamless customization from warm, inviting tones to crisp daylight illumination, ensuring a perfect match for any environment.

Equipped with an adjustable beam angle ranging from 15° to 60°, these fixtures provide precise control over light distribution, making them ideal for both focused accent lighting and broader area coverage. Paired with smooth 10%–100% dimming (compatible with most dimmers), it offers full control over brightness and ambiance.

Engineered for high performance, each track head produces up to 1950 lumens—equivalent to an 80W halogen—while maintaining excellent color accuracy with a CRI of 93+. This ensures vibrant, true-to-life color rendering, enhancing displays, interiors, and architectural features.

Constructed with a durable, thickened metal housing, these track lights deliver superior heat dissipation for extended lifespan and consistent performance. Designed for easy installation, they are compatible with single-circuit H-type (3-wire) track systems and feature 360° horizontal rotation and 90° vertical adjustment for precise, multi-angle illumination.

With a lifespan of up to 38,000 hours and backed by a 3-year service commitment, these LED track lighting heads provide a reliable, energy-efficient, and versatile lighting solution for retail stores, kitchens, galleries, and modern living spaces.
