

## 10W Type-H LED Track Light 5CCT (TRK-10W-CCT-BLK/WHT)

Enhance your lighting versatility with our advanced 5CCT LED H-type track lighting heads, designed to adapt seamlessly to any environment. Featuring five selectable color temperatures—2700K, 3000K, 4000K, 5000K, and 6000K—these fixtures allow you to customize the ambiance from warm, inviting tones to crisp daylight illumination with ease.

Each 10W track head delivers 800 lumens of high-quality light with a focused 24° beam angle, making it ideal for accent lighting in retail displays, galleries, kitchens, and residential spaces. Compatible with TRIAC dimmers (not included), the fixtures offer smooth, flicker-free dimming from 10% to 100%, giving you precise control over brightness and mood.

Engineered for visual comfort and color accuracy, these lights feature a CRI of 90+, ensuring vibrant, true-to-life color rendering. The flicker-free performance reduces eye strain, making them suitable for both commercial and everyday applications.

Designed for easy installation, these track heads are compatible exclusively with single-circuit H-type track systems (track rail not included) and will not fit J or L tracks. Constructed with a durable aluminum body for superior heat dissipation, they offer a long lifespan of up to 40,000 hours.

Backed by a 3-year warranty, these LED track lighting heads provide reliable performance, energy efficiency, and flexibility—making them a smart solution for modern lighting needs.
