

## SLIMBAR 72W 48IN LED WALL WASHER 2700K (WW-48IN-72W-2700K)

Slimbar LED Wall Washer is engineered for reliable indoor and outdoor architectural illumination, featuring an advanced airflow design that minimizes internal lens moisture while delivering superior heat dissipation. Constructed with durable dual-color PC tubes instead of traditional glass, this fixture offers excellent corrosion, crack, and rust resistance along with high light transmittance for long-lasting performance. Rated IP67 waterproof, it is ideal for buildings, hotels, security applications, and engineering projects. Powered by 36 professional-grade LED chips, the 72W unit delivers over 3,850 lumens with RA>85 for bright, comfortable lighting while reducing energy consumption by more than 80% compared to traditional wall washers, and offering a lifespan of up to 50,000 hours. Designed for convenience, it includes a 5-foot waterproof power cable, US three-prong plug, and a 150-degree adjustable mounting bracket for quick, plug-and-play installation on walls, ceilings, floors, or other surfaces.

### Two Adjustable Mounting Brackets with Multi-Angle

<b>Finish Type</b>	Lacquered
<b>Base Material</b>	Aluminum
<b>Lamp Type</b>	LED
<b>Shade Color</b>	Transparent
<b>Shade Material</b>	Polypropylene
<b>Number of Light Sources</b>	36
<b>Wattage</b>	72 watts
<b>Indoor/Outdoor Usage</b>	Indoor, Outdoor
<b>Installation Type</b>	Bracket Mount
<b>Voltage</b>	120 Volts
<b>Brightness</b>	3850 Lumen
<b>Size</b>	47.2"
<b>Light Color</b>	2700K
<b>Finish types</b>	Lacquered
<b>Material</b>	Aluminum+Double color PC housing
<b>Special Features</b>	Energy Efficient, Portable, Waterproof
<b>Certification</b>	CE, FCC, RoHS
<b>Color Rendering Index (CRI)</b>	85
