NOTE FROM THE TEAM

Dear Athletes,

It's hard to believe we're celebrating the **5th anniversary of Tri CLE in 2025!** When we launched this race, we knew there was a need for a local multisport event—but we never could've imagined just how incredible this community would become over the past five years.

We hope your training is going strong and that you're feeling the excitement build as race day approaches! Whether you're new to multisport or a seasoned triathlete, Tri CLE is more than just a race—it's an experience. It's the energy, the camaraderie, and the community that keep athletes coming back year after year.

As we gear up for August 10th, our team wanted to share some fun stats that show just how broad and diverse our race community is. Athletes of all ages and from across the country will be joining you at the start line, united by the same goal: to challenge themselves, celebrate movement, and be part of something special.

- **Participants**
 - A majority of participants are from Ohio, but we also have other states represented: Alabama, California, Colorado, Florida, Illinois, Indiana, Kentucky, Maine, Michigan, Minnesota, Missouri, North Carolina, New Hampshire, New Mexico, New York, Pennsylvania, Texas, Virginia, Washington, Washington DC, Wisconsin, and West Virginia
 - We also have a two participants who are coming from Canada and one from Chile!
- **Registrations**
 - The highest concentration of participants is in the Sprint Triathlon and Olympic Triathlon.
- **Age Groups**
 - A majority of our participants are in the 30-39 age group
 - There are over 50 participants who are in the 60+ age group, with our oldest competitor at the age of 78
 - Over 30+ youth participants (aged 17 and under), with our youngest competitor at age 12

2025 is the second year of the Tri CLE Ambassador program. These 11 Ambassadors will be wearing their 'Tri CLE Ambassador' kits, and we highly recommend asking them any questions you have about racing and Tri CLE, as they are an extension of our team.

Let's make this 5th anniversary race one to remember!

Your Tri CLE Team

Mark, Natalie, Melanie, & Jessica

PRE-RACE INFO

BIKE CHECK-IN

Bikes can be checked into Transition on Saturday, August 9th, from 10:00 AM to 4:00 PM, or on race day, Sunday, August 10th, from 4:30 AM to 6:00 AM. Participants are highly encouraged to check in their bike on Saturday.

Bicycles left in Transition on Saturday night will be monitored by security the entire night.

While bikes are stored in transition, athletes will be allowed to separately cover their seats and handlebars only from inclement weather. Full bike covers/trash bags **ARE NOT ALLOWED** as they present a safety hazard to volunteers, competitors, and equipment. Full bike covers will be removed from any bikes left in transition once Bike Check-In is over.

ADDITIONAL BIKE INFO

Participants will have access to their bicycles beginning at 4:30 AM on race morning, but will not be allowed to remove their bike from the transition area until the start of the bike portion of the race.

We highly suggest releasing some tire pressure in your bike tires before you leave your bike overnight in Transition. Given that the race is during the summer, there can be fluctuations in the air pressure and it could cause your bike tube to pop overnight. Bike Ohio will have bike pumps and compressors on race morning to ensure that your tire pressure is ready to race.

TRI CLE BIKE COURSE

Participants are NOT permitted to ride their bikes on the Memorial Shoreway prior to race day.

The bike course takes place on an active highway for motor vehicles. This area will not be closed to motor vehicles until race day.

TRI CLE SWIM COURSE

The swim course is at Edgewater Beach.

Edgewater Beach is a public beach, therefore, participants can access this swimming area to practice swimming leading up to race day.

Participants practicing on their own must adhere to the Cleveland Metroparks rules and lifeguard instructions.

PRACTICE SWIM

A specific practice swim will be on Saturday, August 9th, from 10:00 AM to 12:00 PM.

Participants **MUST** pick up their packet and timing chip **BEFORE** heading to the practice swim. The athlete must check in with the timers before and after exiting the water and wear the timing chip during the practice swim.

PARKING INFO

PARKING INSTRUCTIONS

PARTICIPANT PARKING

Edgewater Park – 7600 Cleveland Memorial Shoreway, Cleveland, Ohio 44102

Participants will park in the Tri CLE designated parking area on race morning. Edgewater Park is not responsible for parking fees/citations for participants/spectators who park in other areas.

Tri CLE recommends

- Arriving early on race day
- Carpooling with other athletes or family members

Follow the instructions of the parking attendants.

Limit the valuables you bring to the race and lock them out of sight in your car.

ROAD CLOSURES

The Memorial Shoreway will start to close starting at 3:00 AM at Deadman's Curve and progressively roll west until fully closed.

The Memorial Shoreway will begin to open after the last bike is off the bike course. This is estimated to be between 9:00 AM to 10:00 AM.

Enter Edgewater Park at the intersection of Detroit and W.73rd Street.

RACE INSTRUCTIONS

RACE MORNING TRANSITION ACCESS

- Bring only what you will need into Transition on race morning.
- Bike Ohio will be available in Transition with pumps and compressors to help pump tires and to assist with minor mechanical issues. They may charge for parts or tubes, which is up to their discretion.
- Remember your race-issued timing chip and swim cap.
- The timing strap must be placed securely around your left ankle.
- ***Please alternate bike direction when placing bike on a rack.***
- Place your personal race items by your front bike tire, on the ground.
- Listen for final announcements on water temperature and wetsuit status (water must be under 78°F to be wetsuit legal). *Note: Lake Erie water temperature can range from 67°F - 80°F. Visit the [USAT Wetsuit Rules](#) for full details.*
- All relay members must move to Transition immediately at the start of the triathlon and duathlon and be waiting at their assigned transition racking position.

- **Transition closes at 6:15 AM.** All athletes (except relay team members) must exit transition regardless of start time. Timing chips will activate at this time please do not cross the timing mats. If you need something from your bike, please ask a volunteer or the Transition Coordinator for assistance. Be sure to give them your race number.

Only participants are permitted in the Transition area.

SWIM AND AQUABIKE START

- Give yourself plenty of time to get from the transition area to the athlete waiting area on the beach in the morning. All athletes should be on the beach and ready to begin swimming at 6:30
- Body marking is optional. If you would like to body-mark yourself with your race number and age, bring your own permanent marker to do so.
- Athletes will line up at the swim staging area according to the distance & wave start time.
- There will be 3 waves one for each distance
- All swim waves are "self-seating" where athletes can choose their own starting position within the wave.
 - We ask stronger swimmers to start to the front of the wave, and less confident swimmers and youth athletes start towards the end of the wave.
- Athletes will enter the corrals as directed and start every 8 seconds on the bell of the automated timer.
- If Wetsuit Optional Waves or "Party Waves" are implemented due to water temperature (see USAT Rules), those waves will start at a minimum of 3 minutes after the last non-wetsuit athlete enters the water.
 - If you choose to opt in to the Party Wave and wear your wetsuit, you will not qualify for an award or USAT ranking.
 - Official Starter and Water Safety have the right to hold, slow and control entry as needed for safety. Please follow their direction.
- ***NOTE: Athletes may enter the water to get comfortable and feel the water. Please do not swim on the swim course or near buoys. Also be mindful of water safety staff and boats completing set up and course safety checks.***

WETSUIT RULES

- If water temperature exceeds 78°F, wetsuits are still permitted, but participants wearing wetsuits are no longer eligible for age-based division awards. This division will start last for each wave. A special non-award division will be established for participants who elect to wear a wetsuit under these circumstances.
- If the water temperature is 84°F or higher, wetsuits are prohibited for medical reasons. For additional information visit [USAT's Wetsuit Rules](#).

BIKE

- Carry tire levers, extra tubes, and pump/CO2. In case of a flat tire on the bike course, pull over to the **RIGHT** side of the road.
DO NOT PULL INTO THE MIDDLE LANE OR GO LEFT OF CENTER.
- There is a sweep vehicle following the last athlete that can pick you up if you have experienced a mechanical issue and cannot continue. *Please note that this may result in a significant wait.*
- Bring at least one bottle of hydration on your bike and make certain your bottle cages are tight. Hydration packs are permitted to be worn. There is one self-service aid station and portable toilet on the Sprint and Olympic bike course. We recommend filling your water bottle before coming to race. There will be water available in Transition.

TRANSITION

- Rack your bike in the same spot that you removed your bike from.
- Remove your helmet and cycling shoes, then place them next to your bike front tire. Make certain not to leave any equipment in the pathway that would obstruct other athletes.
- Change into your running shoes, run hat (optional), and sunglasses (optional).
- Exit the transition area through the area marked "RUN OUT."

RUN

- There is minimal shade on the run course. We suggest wearing a hat and/or sunglasses to help keep you cool.
- There are aid stations on the run course to help participants stay hydrated. We recommend carrying a handheld water bottle should you need additional liquids between aid stations.
- The run course is open to the public.
- **PAY ATTENTION TO THE SIGNS ON THE RUN COURSE AS TO WHERE TO RUN. RUNNERS SHOULD STAY TO THE LEFT OF THE PATH AT ALL TIMES. WHEN WITHIN THE PARK AND FOLLOW DIRECTIONS IN THE AREAS OF THE COURSE OUTSIDE OF THE PARK.**
- There will be live music on the run course to help keep you motivated!

FINISH

- Head to the finish line after completing the required laps for your run.
- **Aquabike athletes' time will stop at the bike in transition mat. Head to the finish to receive your finisher medal and to return your timing chip.**
- Receive your finisher medal.
- See a University Hospital's medic in the medical area if necessary.
- **BIKE & GEAR REMOVAL FROM TRANSITION WILL BE ALLOWED ONCE ALL ATHLETES ARE OFF THE BIKE COURSE. OR WHEN THE RACE OFFICIAL DEEMS OK TO ENTER TRANSITION.**
- Should you need something from your bike while athletes are still on the course, please ask a volunteer or staff member to retrieve it for you.
- The finish line will have the awards ceremony, post-race snacks, water bottle refill at the Water Buggy provided by The Cleveland Water Department, live music, food for purchase from food vendors, the Recovery Zone (with PT's), and Celebration Garden, which includes a fundraiser for Breakthrough T1D!

TIMING CHIP

The participant will pick up their timing chip at packet pick-up.

The **timing chip must be worn on your left ankle at all times during the race**. If you do not start the race, you are responsible for returning the chip to a Tri CLE staff member or timing team member. Failure to do so may disqualify you from participating in future Tri CLE events. It is essential that we know where you are on the course at all times for your safety and our peace of mind. If you are transported to any medical station, the medical staff will take responsibility for chip. If you lose your timing chip during the event, you are responsible for obtaining a replacement at one of the following locations: swim start, swim exit, bike exit or run exit. If you lose your chip while on the run course, please notify a staff member or volunteer immediately after crossing the finish line.

DO NOT FORGET YOUR TIMING CHIP ON RACE MORNING. DO NOT SAFETY PIN YOUR TIMING CHIP!

TIMING CHIP RETURN

Failure to wear your timing chip on race day, return your chip after the event, or pay the replacement cost of your lost timing chip may disqualify you from future Tri CLE events.

After the race, if you realize you still have your chip, please email customerservice@rockrollrun.com and mail timing chip to Race Penguin within 5 business days to:

RELAY TEAM INFO

WHAT IS A RELAY TEAM

A relay team is comprised of 2 or 3 athletes who compete as a “group” to finish the triathlon. Typically, one athlete completes the swim, another the bike, and the final person completes the run.

The timing chip is passed from one athlete to the other as they complete their respective leg of the race. Relay team members can be comprised of mixed of genders and ages.

RELAY TEAMS

- All Relay team members do not all have to be present at to pick up the packet.
- Who ever does not go to packet pick-up is relying on their team members for information about race day.
- Each athlete that participates in a Relay will receive a shirt at Athlete Check-In.
- One timing chip per relay team
- One swim cap per team for the swimmer
- One sticker kit per team for the cyclist
- One bib per team for the runner
- Each relay team member will receive a wristband, which will allow them to enter and exit Transition.
- Finisher medals are given to the runner upon finishing.

TIMING CHIP RULES

In order to ensure a proper chip timing reading, relay athletes must keep ankle strap and chip on their ankle at all times. Athletes must make the chip transfer from ankle to ankle at their rack in the transition area. Athletes must not run with the chip in their hands at any time to ensure accurate chip reading.

The timing chip acts as the “baton” and athletes must hand off the timing strap/chip to move forward to the next discipline. Failure to do so will result as a DNF.

Swim to bike chip transfer

The bike cannot be removed from the bike rack until the timing chip is properly transferred and attached to the next teammate. The swim leg athlete will exit the swim and head to the transition area where they will locate their bike leg athlete at their bike rack and make the chip transfer.

Bike to run chip transfer

The timing chip may not be removed until the bike is properly racked at its bike rack. **After** the cyclist has racked their bike, they must exchange their timing chip with the runner, who will then affix the timing chip to their leg and head out onto the run course.

Run to finish

Relay team members can meet their runner to cross the finish line together.

If a relay team member drops out of any leg, the relay team will not be able to continue the race and will be disqualified.

RELAY AWARDS

Overall Relay awards will be given top relay for

- Sprint Triathlon
- Olympic Triathlon

ATHLETE RULES

Please take a moment to read and understand Participation Rules.

IT'S YOUR RESPONSIBILITY TO FULLY UNDERSTAND THE RULES AND THE COURSE MAPS FOR YOUR SAFETY AND THE SAFETY OF THE OTHER ATHLETES.

TRI CLE FOLLOWS USA TRIATHLON COMPETITIVE RULES:

Always ride on the right side of the lane to avoid an **ILLEGAL POSITION** or **BLOCKING** another cyclist.

The bicycle draft zone is 10 meters (32.8 feet) long extending backward from the leading edge of the front wheel (5 bike lengths of clear space between bikes). Athletes have 20 seconds to pass through this zone. Avoid **DRAFTING** for your safety and other participants. *Drafting will be monitored.*

When attempting to pass, please call out "**LEFT**" or "**PASSING**" to the cyclist in front of you. Use caution and know your surroundings when attempting to pass.

Always pass on the left of the cyclist in front of you – never on the right – to avoid an **ILLEGAL PASS**. Complete your pass within 20 seconds to avoid impacting another cyclist's safety.

Once passed, an athlete **MUST IMMEDIATELY** begin dropping back out of the draft zone of the forward athlete, before attempting to re-pass.

The **HELMET CHINSTRAP** must be securely fastened at all times when the participant **is in possession of the bike**, which means from the time they remove their bike from the rack at the start of the bike leg, until after they have placed their bike on the rack at the finish of the bike leg.

Please treat other athletes, all volunteers, police and safety officials, and spectators with courtesy and consideration. Any violation of the rules of the event may result in time penalties, forfeiture of award and disqualification.

BIB NUMBER: You must wear your bib number during the run portion of the race. In addition, your bike frame sticker must be properly attached to your bike frame and must be visible from both sides.

LITTERING: Do not throw **ANYTHING** outside of the official aid stations.

ALWAYS ride or run inside the traffic barriers placed on the course. Follow all sign directions and volunteers who may be giving directions.

UNAUTHORIZED EQUIPMENT: *ABSOLUTELY NO MP3 PLAYERS OR OTHER AUDIO DEVICES ON THE BIKE OR RUN COURSE. NO HEADPHONES. CELLPHONES ARE PERMITTED FOR THE BIKE AND RUN COURSE FOR BIKE/RUN DATA. MAKING AND RECEIVING PHONE CALLS, SENDING AND RECEIVING TEXTS, PLAYING MUSIC, AND TAKING PHOTOGRAPHS ARE PROHIBITED.*

UNAUTHORIZED ASSISTANCE: No participant shall accept from any person other than event personnel (including volunteers), but such assistance is limited to: providing nutrition, drinks, and mechanical and medical assistance.

No participant shall be accompanied by any nonparticipants on the course (this constitutes pacing, which is prohibited). Any violation of this Section shall result in a variable time penalty.

DISTANCE CHANGES: You must complete the distance for each discipline event you are entered in on race day. If you do not complete the distances for the event in which you are entered, you will be disqualified and not listed as finishing the event.

USA TRIATHLON RULES

TRI CLE ROCK ROLL RUN ABIDES BY THE RULES OF USA TRIATHLON TO PUT ON A SAFE RACE.

Each participant is expected to know the rules and follow them on race day. Below are some common rules that are typically violated during a race. To review the full rules, click this [link](#).

Eight Commonly Violated USAT Rules

- 1. Helmets and Chinstraps:** Helmets must be worn and securely fastened at all times while in possession of your bike. This means from the time you remove your bike from the rack at the start of the bike leg, until after you have placed your bike on the rack at the finish of the bike leg.
- 2. Unauthorized Assistance:** No assistance other than that offered by race staff (including volunteers), medical officials and active participants may be used. A participant shall not physically assist the forward progress of another participant on any part of the course.
- 3. Non-Draft Legal Bike Position Rules:** Athletes must ride right and only move left to complete a legal pass and must not block athletes attempting a legal pass. Athletes must not pass on the right. Drafting is not allowed. An athlete should not attempt to complete a pass unless the athlete is highly confident in their ability to complete the pass in the allotted amount of time. Once an athlete enters the draft zone of another cyclist there is only one exit and that is out the front.
- 4. Entire Course:** Athletes must complete the race course in its entirety and as prescribed including in segment order.
- 5. Headphones and Communication devices:** *Participants may carry a phone for tracking purposes ONLY (such as, mounted on bike handlebars or in an arm band), but may not use communication devices of any type, including but not limited to cell phones, smart watches, and two-way radios, in any distractive manner during the competition. A "distractive manner" includes but is not limited to making or receiving phone calls, sending or receiving text messages, playing music, using social media, taking photographs or using in a one- or two- way radio communication. Using any communication device in this manner during the competition may result in disqualification.*
- 6. Glass Containers:** Glass containers are prohibited. Bringing a glass container into transition may result in disqualification.
- 7. Race numbers:** All athletes are required to wear race numbers at all times during the run. Numbers must be clearly visible at all times. Numbers may not be altered in any way that prevents clear identification.
- 8. Race number Transferring:** Do not transfer your number to any other athlete or take a number from an athlete that is not competing. The penalty for doing so is Disqualification and one year suspension from membership in USAT for transferring a number without race director permission.

IMPORTANT BIKE COURSE LAYOUT AND COURSE SIGNAGE INFORMATION

Dear 2025 TriCLE ROCK ROLL RUN Participants:

We're doing everything possible to make your race day fun and safe. This event is sanctioned by USA Triathlon and Rule 5.3 (Knowledge of Course) puts the responsibility of knowing and staying on the correct course as the sole responsibility of the participant.

Our team will make every effort to help you stay on the correct course and keep you safe while doing so by implementing the following:

- Duct tape arrows and traffic cones on the road at every turn on the bike course.
- Distances are color coded. **SUPER SPRINT** | **SPRINT** | **OLYMPIC**
- CAUTION SLOW DOWN - TURN AHEAD signs at dangerous turns on the bike course
- Color coded A Frame signs (Super Sprint, Sprint and Olympic) at all Shoreway EXITS and separation points along the bike course
- Volunteers* at critical locations on the bike course

Tips for staying safe and completing the entire bike course:

- Always pass another cyclist on their LEFT and verbally communicate this "On your left" as you pass by
- NEVER pass another cyclist on their RIGHT
- After passing, move to the far right after safely clearing the other cyclists front wheel
- NEVER assume the cyclist in front of you is in the same race as you...they may be doing a longer or shorter distance
- At the merge and separation points on the course stay in your lane until it is safe to move over
- Make sure you know how many laps on the Shoreway your distance requires and where the final EXIT on the Shoreway is located
- *Volunteers are there to slow you down and point you in the direction of the course AFTER you make your decision to TURN, CONTINUE ON TO THE NEXT LAP or EXIT the Shoreway.
- PLEASE don't expect a volunteer to know what race you're doing or how many laps you've completed, that is your responsibility

The Shoreway EXIT signs are the MOST important signs on the course.

MAKE SURE YOU KNOW THEIR LOCATION ON THE COURSE AND HOW MANY LAPS YOU ARE REQUIRED TO RIDE FOR YOUR DISTANCE.

RACE DAY TIPS

HELPFUL HINTS AND EXTRA CLARIFICATION

SWIM

- If you are struggling while swimming, raise and wave your arm to get the attention of one of our many swim support teams on kayaks, boats, paddleboards, and shore. Note: If you need to grab and hang onto a kayak or boat for a short rest you may do so without disqualification, but you cannot make progress.
- Should swim start conditions be unsafe for swimming, the swim will be canceled and the race will become a duathlon for those competing in the triathlon and a run-bike for those competing in the aquabike.
- There will be small kiddie pools of water for athletes to clean their feet
- Carpet will cover rough areas from swim to transition.

BIKE

- Rack your bike in the area that is specific to your bib number.
- Place personal items on the ground next to your front tire. **Only bring into transition what is necessary.**
- Balloons, inflatables, or personal markers are *not permitted*, so memorize your row and racking position and look at the row signs on the end of each row to identify your row.
- Each participant is expected to know the course. Review the maps enclosed in the Athlete Guide. Pay attention to the signs on the bike course.
 - **Super Sprint** bike course is 8.8 miles
 - **Sprint** bike course is 12.1 miles
 - **Olympic** bike course is 22.2 miles
- Per USA Triathlon Rules, headphones, earbuds, or music are NOT permitted on the bike.
- Rack your bike with the seat. Your front wheel will be resting on the ground. NOTE: Rack your bike with the front wheel in the opposite direction of the bikes on each side of your bike.
- Hydrate and take in some calories toward the end of your cycling leg. Getting nutrition is the easiest while on the bike, and this will boost your energy for the run.

BIKE (continued)

- There are several significant turns on the course and merging lanes, so pay attention to road course directional arrows and traffic control.
- **DO NOT RIDE SIDE BY SIDE UNDER ANY CIRCUMSTANCES. THIS CREATES A MAJOR SAFETY HAZARD FOR YOURSELF AND OTHER CYCLISTS AND THIS IS A VIOLATION OF USA TRIATHLON RULES.**
- The bike course is monitored by Race Staff, USA Triathlon Officials, University Hospitals Bike Safety Team, and volunteers; **there is no SAG/bike maintenance support**. Should you have a mechanical issue and not be able to repair or continue, you will be transported to the finish line.
- **E-bikes are NOT allowed.**
- MOUNT your bike in the designated area OUTSIDE of Transition.
- DISMOUNT your bike in the designated area BEFORE entering Transition.
- Participants **ARE NOT** allowed to ride their bike in Transition at any point!

RUN

- **PER USA TRIATHLON RULES, HEADPHONES, EARBUDS, OR MUSIC ARE NOT PERMITTED DURING ANY PART OF THE COURSE.**
- Keep your transition area simple with only items you will need such as shoes, race belt with number, water/nutrition and a hat
- Each participant is expected to know the course. Review the maps enclosed in the Athlete Guide. Pay attention to the signs on the run course.
 - **Super Sprint** is 3k, which is 1 lap.
 - **Sprint** is 5k, which is 1 lap.
 - **Olympic** distance is 10k, which is 2 laps.
- Aid stations – there are aid stations containing water, ice, and Gatorade Endurance.

OTHER HELPFUL TIPS

- Limit the valuables you bring to the race and lock them out of sight in your car.
