● DETAILS

On-duty nurses walk the equivalent of a marathon or more every week as they do the everyday work of saving lives. That's a lot of steps, and when you have an extra passenger on board, comfort becomes an even bigger premium. The polyester-cotton blend build in these maternity cargo pants is soft and breathable, tear-resistant and reinforced with bartacks and heavy-threaded stitching, so you can strike "wardrobe failure" off your worry list. The high-rise waist is stretchy enough to take you from your first trimester to your last, with a silky knit panel dyed to match the rest of your pants for a seamless style. Flared hems with side vents create a relaxed look, and a trusty cargo pocket carries your must-haves like a smartphone, scissors and tissues.

- Classic fit with flared legs
- Regular: 31"; Petite: 28.5"; Tall: 33"
- Cargo pocket with utility loop on wearer's right
- Pen slot and phone pocket
- Silky knit high-rise maternity waist with .5" elastic band at top of panel
- 2" side hem vents
- Bartacks and heavy-thread stitching at stress points
- 360 Degree Motion Stretch flexible-fit fabric
- Polyester-cotton blend

• DETAILS

You love your job, but you're not cutting your hair for anyone. Wear this unisex bouffant scrub cap and it won't even be a question. This cap packs plenty of room for all styles of hair, and with our bungee cord and stopper mechanism to keep your hair in place, you can actually wear it up or down. When operations in the OR go into extra hours, and even the aircon can't stop the perspiration from flowing, a terry cloth band on the inside of the cap traps sweat before it can escape and ruin your vision or contaminate the surgical field. The poly-cotton fabric blend is soft and abrasion-resistant, and the color stands up wash after wash, so your look stays professional and on point.

- Bouffant style
- Bungee and stopper at the back
- Terry cloth sweatband at the front
- Soft and durable polyester-cotton blend fabric

EGGPLANT

SIZE

[What's my size?](#) • [Size Chart](#)[Add To Bag](#)[DETAILS](#)

Walk up from the labs in the basement to the top of the hospital, and you can go from practically polar to almost tropical in just a few floors. Prepare for the changing conditions by layering up in this unisex snap-front jacket, and stay focused on the task at hand and not on the temperature. Once your engine's running, unsnap a little or a lot, or just roll up the sleeves until you feel comfortable. The stretchy ribbed fabric on the cuffs helps them stay in place as you work. Pack the basics you use all day – like alcohol wipes and a thermometer – into the big pocket out front, so you can stay close to your patients instead of looking for supplies. And you'll never lose your favorite four-color pen or smartphone again, with another pocket that's perfectly designed to hold both.

- Two large front patch pockets with pen slot and phone pocket
- Length: 29.75" (size medium)
- Snap-button front closure
- Bartacks and heavy-thread stitching at stress points
- Soft ribbed cuffs
- 4" side hem vents
- 360 Degree Motion Stretch fabric
