

ADIDAS SUMMER SHOES

Warm weather awaits. Get ready for fun in the sun in summer shoes from adidas. Whether you're soaking up rays on a café patio or listening to your favorite band at an outdoor festival, gear up in summer sneakers like our Stan Smith or Grand Court models, and look sharp in casual style that just gets better with time. Inspired by low top tennis trainers from the '60s and '70s, their classic leather upper and set of iconic 3-Stripes — perforated in the case of our Stan Smiths and infilled with every color imaginable on our Grand Courts — are instantly recognizable. Or stroll into the street with decades of basketball DNA underfoot in models like our Forum Low or Superstar shoes. An ankle-stabilizing crisscross strap sets our Forum Lows apart from all other kicks, while a protective shell toe does the same for our Superstars. Sturdy and styling, they're ready for all the blacktop travel you can throw at them.

If summer shoes that rock a running heritage are more to your liking, pack for a picnic at the park, then lace up a pair of our Ultraboost or NMD models and get stepping. Famous for their beyond-soft ride and ingenious energy-return technology, our Ultraboost shoes will keep you going from sunup to way past sundown. Our NMDs sit atop a cushy adidas Boost base as well but are better known for their midsole plugs. Originally added for stability, they're now a savvy style element of the celebrated silhouette. But as with our summer sneakers, there's an almost endless selection of models that you can make tracks in, whether you're headed to the nearest field to fling frisbees at a flag, dance the night away at your neighborhood block party or skip over to the rainbow tattoo booth at your local Pride day. And because summer is about getting back to all the fun stuff you love, our summer footwear includes soccer-turned-skater faves, plus shoes for hiking, biking, golf and even volleyball.

But the best part of summer is getting your toes out of socks. Take to the shore in summer sandals with wide straps and cushy footbeds, and let your feet breathe in the fresh air. Or set up your umbrella and watch surfboard or kiteboard competitions in summer slides that don't care if they get wet. If the beach is miles away, your slides will still come in handy on the walk from the pool to the locker room or the locker room to the yoga studio. Swap your slides for closed-toe clogs, or why not deck out in summer shoes that combine the two. Clides, anyone?

Deciding on your favorite summer footwear won't be your biggest problem. What will be is figuring out whether you want to suit up in leather, suede, mesh or vegan uppers, or go with laces, slip-ons or zippered styles. Will you pull on summer sneakers stamped with a big adidas Badge of Sport or let our 3-Stripes steal the show? And how about color? Will you keep your look classic in all black or all white, flirt with floral designs or get wild in leopard and reptile styles? Will you hit the club with reflective details that glow under black light or hit the links in soles with fluorescent lugs? Will it be metallic or metaverse? And do you level up with lace jewels and Trefoil monograms, LEGO® or Disney designs, or will you choose co-creations by Marimekko, FARM Rio and Stella McCartney? Warm weather will be here before you know it, and deciding could take some time. Start your search for summer shoes now.

ADIDAS MEN'S TENNIS POLO

You might not have made it to a major tourney yet, but that doesn't mean you're not serious about both your tennis game and style. Take to the court in a men's tennis polo from adidas, and feel the difference that decades of design expertise can make to your game. Let's start with our material know-how. From your first forehand to your final slice, men's tennis polo shirts made with our smooth doubleknit and interlock fabric surround your muscles with softness, so getting through all the bruising back-and-forth rallies and grueling tie-breakers in between becomes an easier task. They're made with recycled materials and innovative production processes that keep the planet top of mind, so you can feel good in more ways than one when you wear them.

Now on to our FreeLift construction. Created to allow for a full range of motion and stay-put coverage during overhead movement, it lets you make the most of your biomechanics and deliver aces and smashes that will back your opponent up to the baseline and keep them there. Our men's tennis polo shirts give you a choice of a square or curved droptail hem — with or without side slits — so you stay covered and bend low to return drop shots that barely clear the net. Select a slim-fit shirt for reduced distractions on long points, or select a looser one that feels free as you toss the ball high in the air and get ready to serve out the set. No matter which cut you prefer, there's a men's tennis polo from adidas that's ready to support all the ways you play.

Next up is our breakthrough tech. Designed to help you stay one step ahead of your opponent in even the hottest conditions, our men's tennis polo tops with built-in HEAT.RDY keep you cool while you work on making the competition sprint from side to side with deep, cross-court blasts. As the match wears on and the sweat starts to pour, our men's tennis polo tees made with moisture-absorbing AEROREADY keep you feeling dry, so you stay performing at your peak while your rival on the other side of the net starts to wilt. The ventilating mesh we've placed in gussets under your arms is also ready to kick in. It lets cool air find its way into your polo, even when breezes in the backcourt are practically nonexistent. Shirts with laser-cut perforations that extend from your lats to your waist add a double dose of refreshing airflow.

We design our men's tennis polo tops with a two-button collar for a classic feel, then vary it with low or longer collar styles and smooth versus ribbed renditions. You'll find a textured piqué treatment on the body of some of our tennis shirts and a sleek sheen on others. When it comes to color, if you're a purist who's determined to stick with nothing but all-white gear for your games, you'll find looks that stay well within even the stodgiest club's guidelines and still allow you to strut your 3-Stripes stuff. But if you're happier wearing vibrant graphics and colors that twist up tennis's sometimes sedate look in favor of new traditions, you'll want to check out a men's tennis polo designed by one of our creative partners from across the globe. Our collection of clubhouse-ready tennis tees gives you the best of both worlds by marrying edgy concepts with low-key colors for a smart feel. Whether you play on clay, grass or hardcourt, show up for your next match in a men's tennis polo from adidas, and start your game with the advantage that only our state-of-the-art design and tech can deliver.
