

# **We Think It's Time to Have A Real Discussion**

For the past 20 years, Massachusetts Officials have had a one-way conversation on Firearm Ownership in Massachusetts... **We Want You To Decide!**

Buzz words, to scare people, are constantly being used: "Epidemic of Gun Violence" "Ghost Guns" "Assault Weapons" "Military Weapons" "Gun Safety" "Safer Streets" "Safer Schools" etc.

**Yet, we have never had a true public debate.**

Where actual gun ownership and violent crime data is provided to people like you.

Recently, The Governor and Democrat Legislature passed H4885 "An Act Modernizing Firearm Laws" saying it will reduce Gun Violence, Violent Crime and Ghost Guns

Yet within the 116 Page Bill, only 10 sentences out of 2455 address Ghost Guns (Page 25 of 116)

**You have to ask yourself... what has been snuck into the other 2445 sentences of the bill?**

Pepper Spray is regulated under Firearms, Non-Resident Junior Hunting is Outlawed, Muzzle loaders which have never been involved in any crimes, centralized database exposing where Gun Owners live, outlawing certain paper targets...

We would like to have a real debate and real public discussion on the issue.

**We Demand a Statewide Referendum on the recently enacted law. We want YOU...the People... To Have A Say!**

**We Want You to Decide in a Statewide  
Vote, on this Law, to be held in November  
2026**

**Paid for by The Civil Rights Coalition - Ballot Question Committee**
