

**Dear District 6,**

**I believe...**

- **Our current policies on crime and policing are failing – Albuquerque’s problems are only getting worse**
- **Albuquerque’s citizens deserve a clean and safe city**
- **We need to create a stronger City Council that works for our city**

### **We Can Do Better**

We have to face reality; our beloved city and district is beset with terrible problems like never before. Current policies have created unbearable conditions for small businesses, our citizens and even for the population they were intended to serve. We have to work together to make the tough but fair decisions that are needed. We must commit to take the necessary actions to fix what we know is broken. It won’t happen overnight, it won’t be easy, but we must start now!

I have direct expertise in public safety and homelessness, and I have solutions. I have the skills, experience, and the willpower to tackle our problems. I am not afraid to speak out about what needs to be done, to face the hard realities. My lifelong mission of helping people in need has led me to a professional career in nonprofit leadership over the last 15 years. Being elected to our Council for District 6 will make good use of my practical skills, leadership abilities and continue my mission of doing good work.

Jeff Hoehn
