

**ONE Wellness Center
Procedures to Keep Everyone Safe
March 1, 2022**

ONE Wellness Center's primary objective is to remain a provider of healthcare services with the safety of each person as the highest priority.

We continue to have some procedures in place in order for people to utilize our Center. These procedures follow NYSDOH (New York State Department of Health) and CDC (Center for Disease Control and Prevention) guidelines.

- We will continue to require masking to enter the building and the Center whenever you are in the common spaces of the Center.*
- When you arrive for your appointment, we ask that you go directly to your treatment room with your practitioner. Once inside the room, you can discuss your vaccination status, etc with your practitioner and determine if you are comfortable removing your masks during the treatment.*
- Your temperature may be taken by your individual practitioner. If your temperature is above 100, they can take your temperature again. If it remains about 100, you will be asked to reschedule your appointment.*
- Hand sanitizer will also be available for your use throughout the Center.*

We appreciate your understanding and cooperation with the new protocols.

We value your trust loyalty and we look forward to continuing to serve you.

*Johanna Rae Woodside,
Owner - ONE Wellness Center*
