My Voice and Vision for Hollywood

What is Your Creative Vision? [Go to the Ends of Earth - Write Uplifting Stories](#)

My brand is to be a creative voice for a hurting humanity through Underdog stories of hope, healing, and heroism. As a produced Screenwriter of dramas and comedy Staff Writer, I craft emotional narratives from a female POV. My vision is to motivate Hollywood to make more life-affirming films/series of diversity with meaningful messages to transform audiences' lives.

My current goal is to find Producers who believe my BIOPIC true story must be told - titled ESCAPE TO EVEREST. And will champion my dream for this fast burn Adventure Drama to be seen on the big screen. I believe this epic journey of a mother and daughter with the heroic courage to trek Mt. Everest, to cure both their cancers, will attract A-List Actors. Like Meryl Streep, Reese Witherspoon, Charlize Theron, Michael Madsen or Jon Hamm.

What Have You Overcome? [Core Wounds - Broken Backstory - Life Challenges](#)

I came into this world showered by love and a genetic dose of creativity from extraordinary artists in my family history. But my life was crushed from age 3 when I endured an abusive dad, 6 NDEs, and ovarian cancer later. Then, the overwhelming loss of three close family members in the same year devastated me. It was my lifelong trek with God that rescued me.

How Will You Succeed in Hollywood? [Diamond in the Rough - Be Discovered](#)

I'm also shopping another passion project titled DEMENTIA DIARIES. It's a high-octane Dramedy. The TV Series is inspired by true events. I show how those who suffer the heartbreak of dementia use surprising humor as the best medicine to cope with this mental illness. I invite your readers to send me any funny dementia stories they've experienced. My hope is that my fresh story ideas will attract Hollywood and unearth that I'm a diamond ready to be discovered.

BRAVO! "Meeting CEO Giovanna Salas, I felt like I was touched by an angel. And working with the Dream Team at HOH was a warm hug of hospitality!" - Cherami

TEAMWORK

Author Tabitha E. Steven's Imagination Gives Way to an Exciting Book Series

Tabitha E. Stevens is a storyteller who enjoys writing fantasy, science fiction, romance, and mythological stories infused with other genres. She is the author of several books, including the intriguingly titled **Gravity Lies Light** series.

What made you decide to become an author?

I started writing at an early age and wanted to only focus on fantasy and science fiction. As I got older, I just wanted to write young adult fiction, which gave me the opportunity to explore different themes and elements.

Where do you find your inspiration?

My inspiration is the curious nature of childlike innocence within myself to explore and look at everything still with wonder and enjoyment.

What writing experience do you have?

My writing experience is a background in academia, with a Bachelors' in English from Ashford University, and writing poetry.

What do you enjoy most about writing?

I enjoy writing with the imagination and the ability to construct an entire world into view.

Tell me about your biggest writing accomplishment.

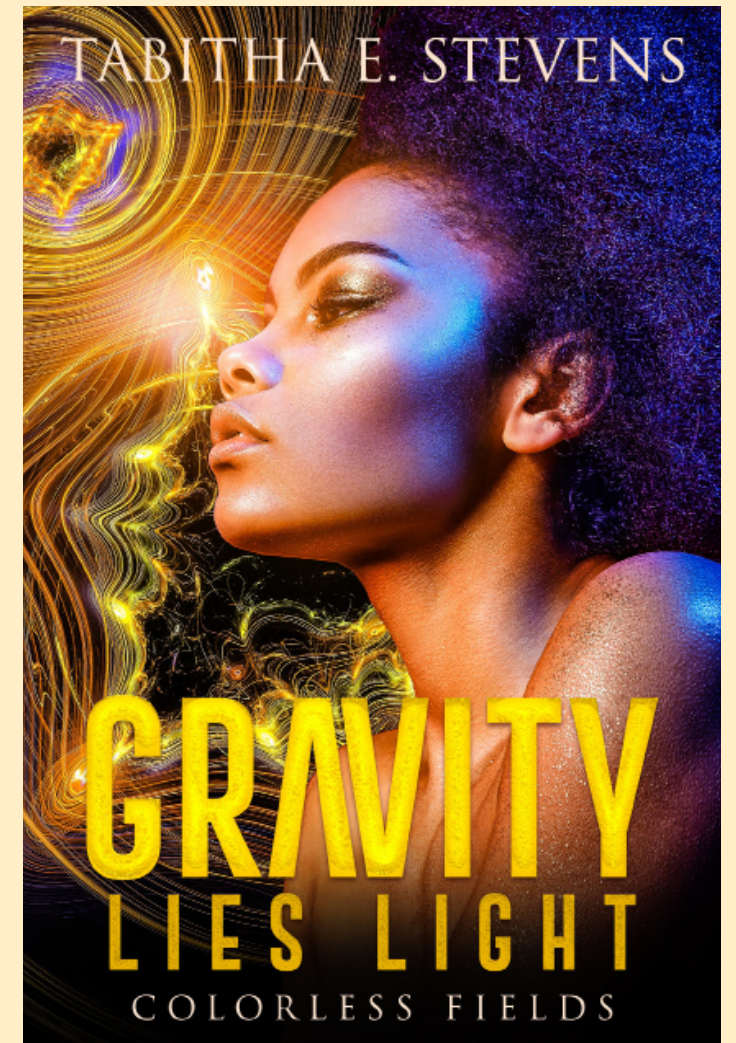

My biggest accomplishment is the **Gravity Lies Light** series that is coming out with the second book, *Colorless Fields*. It is the extension of the story of what surrounds the planet Light.

Can you tell me about the book?

Colorless Fields is the sequel to *Innocence Withstand* that carries the story between Tisi and Nolan with their space adventure that crosses the galaxy where more hidden elements encounter them, unfolding dark truths that open a floodgate to the past and their future.

Who are your favorite characters and why?

My favorite characters are Tisi and Nolan, because they are going through finding the scale of the family's ambitions and hidden secrets that await them as they come together.

How do you prepare for a new book?

I prepared for writing this story to continue the path of Tisi and Nolan with their young adult fiction adventure into the unknown of where they would bring their lives next.

What is your message to our Heart Of Hollywood Magazine readers?

I want Heart Of Hollywood Magazine readers to get ready for a whole new galactic adventure with **Gravity Lies Light: Colorless Fields** coming out in February 2022.

My dream is to become an Academy Award winner. I believe I'm definitely on the right path, but I also believe some of my dreams have come true already. Never in a million years would I have thought I'd be flying to India to film a Bollywood movie.

Happy New Year Beautiful People!

Wow, hard to believe we are already inside of 2022...., right? As we move forward, upward, and further down this journey known as purpose, I wanted to take just a moment to encourage, uplift, and celebrate each of you and all that you are doing to make our world a better place to live in! There are so many things going on within our world today, and so many of those things are troubling, confusing, and difficult for many to process. Having said that, it brings me to what I feel is most important for each of us moving forward within this new opportunity, this new frontier, this new year. Although as a people there is much happening around us all that encourages polarization, separation, and/or fear...., there is still that most important "fix all" that resides within the Universe and is available to all who desire it, and that "fix all" is HOPE. For those of us who don't have the monetary means to do everything we would like to do to make life better, there is still hope. For those of us who can not for whatever reason defrost the frozen hearts of those who are blind to the pains and needs of others, there is still hope. For those who fear that the world will never see them as meaningful, contributing, or purposeful, there is still hope. I encourage each of us to make this small yet powerful word our daily mantra; to remind us, to renew us, and to remember us to what truly matters, and what truly matters is that we never forget that no matter what life throws our way, it is HOPE that springs eternal. Please scan the QR Code here to receive my free New Year's gift for each of you, this gift will replace your New Year's Resolutions with New Year's PURPOSE! Be encouraged, and never ever lose HOPE! Until next time...xoxo Loren
