Actor, and other stuff too.

Pick your favorite package.

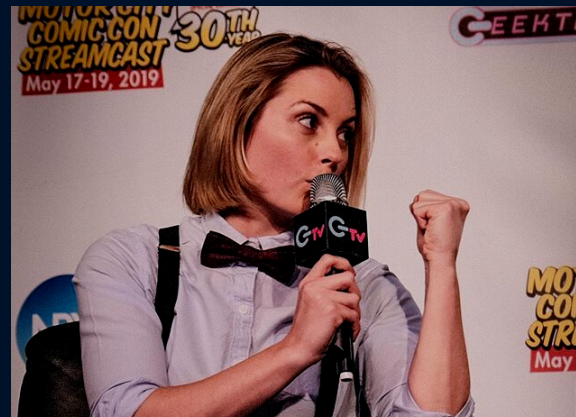

● From the Future

2+ hour *Aliens Reaction* was filmed entirely on green screen, and I've done MOCAP and face cap for AAA games.

● Androgynous

I really just want to play every character Bruce Willis has, so feel free to cast me in a typically male role and win bonus points with people who are into that.

● Small But Like an Army

Played hockey with the boys growin up. Has no girl skills. More comfortable with a throwing axe than a curling iron, though they might do the same damage.

● Crazy Host

I do live stuff too; interviews are my favorite. (experience: Motor City Comic Con, E3, Halo Outpost Discovery, PAX West)

● ● ● + Contact me.

Deal with me, not my agent.
