

TROPICAL SHRUB

2 cups of Peach White Balsamic
1 cup of fresh strawberries roughly chopped-smashed

Ingredients when serving:

1 cup of fresh strawberries sliced
1 lemon thinly sliced
Fresh mint leaves
8 cups of chilled sparkling water or seltzer water

In a 1 liter mason jar or container add the strawberries, pour Peach White Balsamic and refrigerate for at least an hour or up to four hours. The longer it sits, the more pronounced the flavor of the infused fruit will be. Strain, keep in a tightly sealed container and refrigerated up to two months. To serve, add 1-2 tablespoons of shrub for every 8oz of chilled sparkling water or seltzer water. Add fresh fruit, lemon and mint. Serve chilled over ice
