Exploring Music as Media In The Church

Sign Up for our Introductory workshop for the youth in your church (101) and for the adults (102). For more information visit:

www.EmpireForGod.Net and download the program description.

Greetings,

I'd like to welcome you to the worldwide movement of Media Literacy.

Media Literacy is the New Literacy of the 21st Century. It's one of the most important solutions, to ensure our future generations will be empowered with the knowledge and theory related to today's technology. Media Literacy will increase our youth's critical and analytical thinking skills, which can help them succeed in their everyday lifestyles.

Please review the program description for one of our popular after school Media Literacy enrichment programs.

I'm also able to custom design, curriculum / lesson plans to fit the needs of any children enrolled in your after school / summer enrichment programs.
