

## Easy and Organized Ways to Save with Coupons

Coupons as a hobby has many different levels of intensities, some people even make it into an extreme sport. However, everyone can and should take advantage of basic couponing to save some money! From codes to clippings, take a look at these tips to learn how to make the most of your coupon collection.

### Invest in a Coupon Folder

The best way to keep track of your coupons is by purchasing a coupon folder. Buy one with tabs at Target, an office supply store, or online, and sort your coupons by discount, by store, by expiration date, or any other way that works best for you.

### Remember There's Digital *and* Paper

A lot of coupons and promos exist online these days, but don't forget about paper coupons! Remember to check the bottom of your receipts, middle of magazines, and in newspapers and circulars for some free discounts.

### Don't Let Your Coupons Pile Up

It is important to go through your coupon folder regularly to toss expired coupons and properly categorize any stray ones. Take this time to also go through your mail and find some from magazines or newspapers that you can add to your collection, and then recycle what you don't need.

### Savings Websites and Apps

Couponing on the go is easy to do with laptops and smart phones, so there are dozens of apps and websites at your disposal. [RetailMeNot](#) is one of the most popular coupon websites and has everything you need to score a bargain on your next purchase. This site stays up to date on all the deals and steals going on at all your favorite stores. With just the click of a button, RetailMeNot will take you to the store's sale or add the promo to your current shopping cart, making couponing so much easier!

### Sign Up for Email Lists

Signing up to get emails from your favorite brands can be super helpful. Not only will you be in the loop on what sales are going on, but you will also get exclusive offers from time to time just for being subscribed to their email list. If promotional emails are cluttering your inbox, set up folders for them to be sorted by category and to keep them all in one place.

#### ARRANGED PRO TIP

Have a few coupons you want to use all at once but are only allowed to redeem them in separate transactions? Bring a friend along with you when you go shopping so each of you can check out half of the products and use both coupons!

Are your days too chaotic to learn simple saving techniques? If so, we can help.

ARRANGED will implement a plan to declutter and professionally organize your office and home in a functional, aesthetically-pleasing way. Allow us to straighten up so you don't have to!
